# THE TURTLES HAVE TAKEN NEW

1

Raphael decided to start using his head when he fought. So after a year of grueling training, he has hard-core head butting down to a science with his power drill attack.

2

Splinter taught Leonardo that the best defense is a sharp offense. So Leo learned to get the edge with a cyclone sword spin that slices Shredder's soldiers down to size.

Manhattan's crime rate is up. Two thousand feet to be exact. Because Shredder has ripped the island from the face of the Earth.

Splinter has taught the turtles some most excellent new moves that'll have Shredder's mob babbling for weeks. And for the first time ever, you can practice your new ninja warfare on each other in the two player mode as you face a never before seen eight level test of turtle power for your NES."

Battle for survival on surfboards, battleships, blimps, star destroyers, and in the seediest parts of Manhattan where even a respectable reptile wouldn't wander.

# STEPS TO FIGHT CRIME.

# 3

The inspiration for Donatello's devastating attack move came to him while at a late night Bowling for Pizza party. Now he enjoys striking with his gnarly knockout roll. Spare no one, Don.

# 4

The Turtles always told Michaelangelo that his smelly feet were lethal weapons. So he put them to use with an awesome kangaroo kick that knocks foot soldiers silly.

Fortunately, when the going gets tough you can change turtles in the heat of combat, just like the tastiest of tag teams. It'll take all of the fab four to shred a slew of slugs like Leatherhead, Rahzar, Groundchuck and Tokka.

So team up with the Turtles and stop Shredder from holding up three million dudes and dudettes.

# THE TERMINATOR™

**W**elcome to Post-Holocaust Los Angeles in the year 2029, where mutant robots pilot their crafts through the blood-red sky, hunting down human beings that once dominated this wasteland.

Just like the movie, you assume the role of Kyle Reese, a time traveller from the future who returns to modern-day L.A. to protect the life of Sarah Connor - the beautiful woman who holds the key to the survival of the human race.

Your mission: Outwit and outmaneuver a brutal killing machine known as the Terminator. He's big, he's bad and he's virtually unstoppable - let's hope you're smarter!

#### FEATURES:

- Movie-like soundtrack complete with realistic sound effects
- 8 MEG of futuristic firepower

# THE GREATEST PLAY IN FOOTBALL HISTORY.

Get ready to tackle the ultimate Super NES™ challenge.

John Madden Football™. It doesn't get any tougher than this.

Madden delivers the most guts ever in football. Twenty-  
**SUPER NINTENDO** eight pro teams plus an All-Madden squad. The latest plays, schemes, and formations, from

deep flags to safety blitzes.

And competition that's sure to be a smash. Because the guys on the other side of the line adjust to your playcalling. Call a play once too often, and you'll get planted in the turf. Permanently. Giving you the most intense football action you can get.

So Madden is flat-out the most realistic game this side of Sunday afternoon.

Each team roster is packed with 35 pros, each man rated on six different attributes. Some are more durable; others, better on grass; others, better in mud. Play to their strengths, and you'll make it to the playoffs.

Besides calling the shots, you have more moves than a cheerleader. Take your running back, for example. You control every spin, cut back, dive, you name it. Use the "oomph" button to steamroll for a first down. If you don't like what you see at the line of scrimmage, you can audible. You can even choose the weather.

You get over 100 plays drafted right out of Coach Madden's own playbook. And all of them are right onscreen for easy playcalling.

Talk about in your face. With its Mode 7 Roving Camera, EASN's instant replay pans anywhere on the field.

Play on the only Super NES 3-D scrolling field, enabling you to read defenses like a book and spot holes quicker than a rabbit.

No matter if it's man-to-man, bump-and-run, or zone coverage, EASN's IsoVision makes sure you don't pass up the open man.

EASN's close-ups zoom right in on critical first down measurements.

Capturing every boo, cheer, or gasp from the crowd. All the details and grit of the sport itself.

Any play can be instantly replayed, too.

In slo-mo or

frame by frame. EASN's

Mode 7 Roving

Camera covers more

ground than a blitzing linebacker, going anywhere on the field. So you can always see who made the play and who blew it. And our exclusive IsoVision™

camera spots the open receiver everytime.

Get in the game. Visit your local EA dealer or order by phone any time: (800) 245-4525. And make Madden your number one pick.

## CES IMPRESSIONS...

We're back from the Consumer Electronics Show and it was a real treat to be able to have the opportunity to play all of the new carts that the companies are working on. While I have been attending all of the shows since video games started way back in the 1970's, each one turns out to be a new experience. There always is new technology, peripherals, accessories and of course, tons of games. This show was probably the best yet. With the 16-Bit wars starting to really heat up it is interesting to sit back and see how the major players stack up against each other. Last summer it was Sonic vs Mario and the Super Nintendo and this time it was quite different.

Nintendo really came out swinging. Their licensees have been working long and hard trying to improve on the first generation of Super Nintendo games. It was easy to see that they have done their homework as this new generation of carts have very little slow down or flicker. Programmers are trying new things with the Mode 7 and some of the games we played are setting new standards of excellence. Turtles 4 by Konami has your player throwing the enemy out of the screen towards you! Out of this World by Interplay makes extensive use of filled polygon graphics in a story book like adventure. Of course there are the arcade games, no CES analysis would be complete without mentioning the spectacular Street Fighter 2. Not only is it the worlds first 16 megabit cartridge but this super soft is probably the best arcade to home system translation ever made. It is that good! Throw in other hot titles like Super Battletoads, Contra 3 and Bart's Nightmare and we can say now that this system is really starting to evolve into a Super Nintendo Entertainment System. If that impressive line-up of software wasn't enough to dominate the show, Nintendo quietly dropped the bomb on the competition by announcing the specs to their new CD-ROM peripheral. Specs can be deceiving but with 8 meg of memory, full motion video capability and a coprocessor it sounds impressive. The best part...Nintendo says it will only cost \$200!

NEC/Turbo Technologies wasn't on the floor but they had a very impressive display of titles which they plan to bring over from Japan as soon as they get up and running (April 1, 1992). They also confirmed that they will make a U.S. equivalent to the PC Engine Duo in addition to releasing a new Super System card to play the new Super discs. Behind closed doors they were showing their not to secret 32 bit machine.

Sega, historically, never has a lot to show at the January event. Such was the case this year. The Mega CD was behind closed doors and the cartridge games were basically updates of some of the older sports games. Holyfield has his name on a new boxing cart, the baseball game has a nonstop voice like their Joe Montana football and there is a new D & D RPG. No Sonic 2, no Batman 2, no Phantasy Star 4 and no mention of new things to come.

The Neo-Geo booth was buzzing with activity as SNK had a few spectacular carts to show. Last Resort, Fatal Fury and Andro Dunos had constant lines of people waiting to play these games. This is going to be one hot system this year.

Overall, the show belonged to Nintendo. They had the carts, the technology and the wherewithal to open the R & D doors a crack to show everybody what was coming out in the future! If they say they will sell 6 million systems this year, they just might do it with a line-up as good as we saw, and this is only the first 6 months of 1993! I can't wait to see what they will have in June!

## MEGA CD QUESTIONS...

I can't wait! After reading your great Mega CD article in the February issue, I can't wait until July. I am happy that I didn't go out and buy the Japanese system. Imagine those players who popped \$500 for a worthless system! Thank you, thank you, thank you for printing the full story on the CD-ROM compatibility situation.

**Scott Peters**  
San Jose, CA

**The Japanese Mega CD will not play the U.S. discs!**

I am seriously considering on purchasing the Mega CD when it comes out in June and for that reason I have been following your monthly articles on this peripheral. Your February story was the one which really sold me. You told me absolutely everything about the system, and went into a lot of details the competition didn't (I must admit, I get all the magazines). It was good that you were finally able to clear up the compatibility question. Now what about the U.S. software?

**Jim Carlen**  
Houston, TX

What's with the metal plate you show connected to the Mega CD? Does it serve any special purpose? There was a cable you mentioned that goes into the back of the Mega CD, what does that do? Are you sure that the Japanese Mega CD won't play the U.S. discs? The other magazine's article didn't say that.

**Scott Winston**  
Rego Park, NY

*(Ed. There has been a lot of mystery about the Mega CD since it's debut last June and that is why Ed spent months digging for all of the facts. System compatibility was a major issue especially when almost \$500 (U.S. mail order price) was involved. We checked and double checked the compatibility situation and even got a quote from a spokesperson from Sega. We do our best to get you the most information as soon as it is available and with sources world wide we can get info very quickly. We try to be thorough and we'll go to great extremes to get you the best data. Comparing magazines is like comparing apples and oranges. Each has it's own style. We consider the Mega CD (and now, the Nintendo CD) a very important product and we will devote whatever time, effort and space is needed to get you the full story. That is why you will see details in EGM that you won't see elsewhere.*

The metal plate is used as a spacer to properly align the Genesis with the connecting post on the Mega CD. Technicians tell us that it also serves as an auxiliary heat sink (the vents on the Genesis are blocked by the Mega CD case), as after prolonged use the Genesis and Mega CD get warm. The cable mentioned, sends the stereo audio from the Genesis to the mixing input on the Mega CD. This mixer combines the audio from the Genesis

with the audio from the Mega CD. Only one set of cables is then needed to send the audio out to your stereo.)

## S-NES CONTROLLERS

As good as the standard controllers are for the Super Nintendo I would like to know if there are any others coming out that may be better. Having an auto fire would be nice as would be a slow motion switch. Have you heard of anything new?

**Joshua Park**  
Gretna, LA

**The ASCII Pad has auto fire for all 6 buttons and slow motion!**

*(Ed. As the Super Nintendo grows in popularity companies will start releasing new products. Since there are over one million systems in homes now, you can expect to see a flood of new accessories coming out this year. One controller which we can recommend is the ASCII Pad. It has adjustable auto fire controls for all 6 buttons and a switch for slow motion effects.)*

**There was one Mega CD on display at the Winter CES - at the EGM booth!**

# Wipe the smile off this face!

**(And maybe a few of your friends, too!)**

Here's your chance to wipe the smiles off those annoying happy faces once and for all! In FaceBall 2000, "Have a Nice Day" takes on a whole new meaning—in first-person perspective, with 3D graphics and 360° maneuvering!

**WATCH OUT!** They only look happy!

## Get into your Game Boy...

## Bring your friends along!

Sure. You can take on the Smiloids alone. But with your Game Link™ cable or Four Player Adapter, those faces can belong to your friends! Play one-on-one, two against two, or free-for-all!

*More than four times the fun with the Four Player Adapter!*

## It pay\$ to play together.

Don't miss your chance to get up to \$5 back with our multiplayer rebate! You'll find all the info inside your FaceBall 2000 package when you open it up for the game of your life! But hurry. Some of your friends might be buying FaceBall 2000 right now. If they get in too much practice without you, the smile that gets wiped might be your own!

## TURBOGRAFX DUO...

I would like to ask a question in regards to NEC/America. I own the TurboGrafx 16 bit, CD-ROM, PC Engine adapter board and version 3.0 Super System Card. With discovering the world of the PC Engine and the wider variety of games and CD's, I now wonder why NEC never brought over such great titles as Far East of Eden and the Complete R-Type. There seems to be a much wider (and better) selection of Japanese games. When I saw the selection I couldn't believe it. Since you are the guys who can find out anything, what's the story?

**Mark Bray**  
Toronto, Ontario

**The U.S. version of the PC Engine Duo will be out this fall!**

(Ed. There's good news Mark! NEC has joined forces with Hudson to form a new company called Turbo Technologies. This new company plans to draw more heavily from the Japanese market and the sequel you requested - Far East of Eden 2 will be translated and brought out for the new U.S. version of the PC Engine Duo. Other great carts and CDs are also on their way to the U.S. You will definitely want to check out our special 32 page bonus CES mag, packaged along with this issue) for a more thorough listing. This new company will begin operation on April 1, 1992 and the games should be starting to appear this summer. Your set-up is quite innovative, and for others who want to have something similar, Turbo Technologies has announced that a U.S. version of the Super System Card (version 3.0) will be coming out very soon. This will allow the TurboGrafx to play the new Super System discs. The U.S. version of the PC Engine Duo is scheduled to be out this fall.)

## S-NES STREET FIGHTER 2

You have said that Street Fighter 2 will be coming out for the Super Nintendo. Since it is my favorite arcade game I am very interested. I would like to know if it will look as good as the arcade version? Will you be able to pick from all eight different warriors? And will you get to use all of the special moves for each fighter? By the way, your Street Fighter 2 section really helps me kick butt now! Now I know why you are the number one magazine for detailed arcade coverage!

**Andrew Simmons**  
Arangelridge, SC

I am a video game freak, and I love your magazine! I have two questions to ask you. The first one, In Final Fight what ever happened to the third character besides Cody and Haggar? I mean from the arcade version. Why did Capcom take him out of the S-NES version?

The second one. Can you give us an update on Street Fighter 2 for the S-NES?

**Michael Thompson**  
Dallas, TX

**Is this the arcade or S-NES version of Street Fighter 2? Turn to page 84 for the answer!**

(Ed. Hundreds of letters each week are pouring in about Street Fighter 2. It is good to hear that players are going out and using the information that we published in our special Street Fighter 2 Guide. For more updated information on how the Super Nintendo version compares to the arcade game, don't miss our special fact file on page 84 where we run the exact same move on both versions. This way you can see how good the 16 meg wonder really is! Again, this is the detail that you want, and you only get it in EGM!

Even though the version we got to play was only an early alpha version, all of the characters were programmed into the game, and you will be able to do all the special moves! A special controller is seriously being considered by Capcom however we had no problem using the 6 buttons on the standard S-NES pad.)

## 16-BIT WARS...

Well the war of the 16-Bits between the Turbo/Genesis/S-NES has begun. I would like to know who had the most sales over the Christmas season.

Also is it true that Aliens 3 will be coming out for the Genesis? And will Acclaim, Sunsoft and Data East will be making games for the Genesis?

**Pablo Ayala**  
Acapulco, Mexico

**Alien 3 is on it's way for the Genesis!**

(Ed. Actual sales numbers for the game systems are nearly impossible to obtain. While each company published their own numbers, verifying them is not possible. For example Nintendo has stated that they sold 2.1 million Super Nintendo's in 4 months and they are in first place. Sega states that they sold out their inventory and that their installed base is nearly 3 million systems. They say they are in first place. Who really is the leader? Probably Sega but that can't be confirmed. Nintendo says they will sell 6 million S-NES this year!

As you can see, from the photo Alien 3 does exist and will be coming out soon from Arena (just recently purchased by Acclaim). Acclaim (under the name Flying Edge, Data East and Sunsoft will be bringing out Genesis carts this year.)

## PASSWORD PROBLEMS.

I am writing to register a complaint about two third party games issued for the Sega Genesis -- King's Bounty (Electronic Arts) and Battlemaster (Arena). Both of these games have the same fatal defect -- long passwords are given to the player in an illegible type font. This font additionally doesn't resemble the type font the player later uses to enter the password in an attempt to reenter the game. In the case of King's Bounty, there are about 7 or 8 characters in the former type font which can be confused with others, and the characters are scrunched up against each other; in Battlemaster, the whole font is only semi-legible, and there are also several characters which resemble each other. But the real killer is the lack of resemblance between these fonts and the ones used for entering the password; there can be no learning curve if one always enters an invalid password and has no idea, or means of finding out, what he did wrong. It is also highly insulting to the player that the fonts for entering the password in both games are highly legible, implying that they could have made others if they had bothered.

William Michaels  
Hopewell, NJ

### Illegible password letters in the Genesis game - Battlemaster?

(Ed. You're right William. Not only are the passwords unbelievably long but they are very difficult to read. While long passwords, many times, can't be avoided because there are so many different variables in the game, the font is easily controllable. In this case we agree that these companies could have picked a more legible font. Hopefully by reading this, they will pay more attention in the future.)

## TURTLES 4...?

Let me start by complimenting you on your increasingly better coverage of the Super NES. When it premiered you dumped on it but now you seem to have taken a heavier liking to it.

Well I just bought the January '92 issue and I was blown away by the sterling coverage of everything! Being a fan of the Ninja Turtle games, I loved your in-depth review of Turtles 3. No other magazine came close to such a cool preview of what looks to be a HOT game! I can't wait to get it.

Now with Turtles 3 done, what do you have to say on Turtles 4? Is it really coming out for the Super NES? Will it be unveiled at the Electronics Show? If so, please show pictures! Anything you could tell the readers about Turtles 4 would be great, especially if it's a two player game!!

Chris Leder  
Carol Stream, IL

### Turtles 4 on the Super Nintendo is the best version yet!

(Ed. You want it...you got it!! Yes it was at the CES and we couldn't tear ourselves away from it! You bet it is a two player game and there is no sign of flicker when the action gets intense. New moves, great graphics, super sound, cute animations, and even a new use for the scaling function! In this, if you do the right move, your player can grab an enemy and throw him off the screen -- not to the left or right, but he comes towards you - out of the screen! It's a new idea and very well done! For the largest and best coverage of this cart check out our super two page preview fact-file on pages 82 and 83 in this issue! All of your questions will be answered there!)

## SUPER BATTLETOADS...?

What's the story about Super Battletoads by Tradewest? Quartermann talked about it issues ago and you haven't shown anything yet. I thought you were the guys who always got the pictures first? Don't let me down!!

Gabe Pona  
Hamilton, Ontario

### Super Nes Super Battletoads is on it's way!

(Ed. As part of our editorial policy we always try to get photos to back up anything we talk about in the magazine. Getting a picture of Super Battletoads was difficult but we finally got to see the game at the Consumer Electronics Show. Even though only one level was finished, what was there looked hot! There are new super moves and, of course, it is a two player cooperative game if you so desire! Since we had our cameras we made sure to get tons of pictures of this surefire hit! Check out our special preview fact-file for lots of screens on page 88.)

## WHERE IS SOLSTICE 2...?

Several issues ago you talked about a sequel to the popular Solstice game. I believe you had it in your International section. The rotating screen trick looked different. Can you follow up on this?

Paul Kravitz  
Fortuna, CA

(Ed. We are pleased to report that the sequel to Solstice is definitely scheduled for release here in the U.S. We just got a partial copy of the game and it is everything that you say! The rotation of the screen to follow your moves is revolutionary! Check out our exclusive coverage of Equinox on page 94.)

## GAME OF THE MONTH

This month's Game of the Month goes to the long awaited 16 bit version of Zelda 3. This outstanding game faithfully continues the tradition and game play that we loved in the first two versions and adds new and improved 16-Bit graphics, excellent audio and a quest which averages a good 100 hours! You had better get your copy of the game reserved now as this super cart will be in very high demand!

**S** Having come back from the CES with tons of new carts, the boss is knee-deep in great softs. He says Turtles 4 is hot!

**E** Having finished up with his Mega CD article, Ed is now hot on the trail of the elusive Nintendo/Phillips CD-ROM!

**M** Though Martin was disappointed that he didn't see Axel at the CES, he was content to have Gate of Thunder!

**S** Sushi-X pitched his tent in the Capcom booth and completely dominated the Street Fighter 2 S-NES game!

This 16-Bit installment of Hudson's greatest adventure series is due to hit the stores soon. Your girl has been turned to stone by an evil warlock and you have taken it upon yourself to rescue her from her grisly fate. Challenge 20 different areas filled with vibrant colors and hidden power ups - 16-Bit style! Armed with a stone axe and wicked boomerang, you will face several enemies on your way to the warlock's lair.

I like what Hudson has done to revamp many of the original concepts of the Adventure Island series to get this title up to 16-Bit speed. While there are some problems in the execution of the title, and many of the most important features remain 16-Bit enhancements of the 8-Bit title, there is enough to warrant purchase.

Hudson pulled out all the stops when they designed this super cart! Not only does this 16 bit-wonder retain all of the fun of the previous carts, but it goes beyond what was done in the past by adding spectacular graphics, a longer quest and some of the best music ever to come to a home video game.

Master Higgins is back for his best adventure yet! This is the best looking and sounding Adventure Island ever. The graphics are colorful and feature excellent animation. The music is done by Yuzo Koshiro (Streets of Rage & Act Raiser) so you know it's great! Solid game play ties it all together!

Super Adventure Island is a great Super NES title! The graphics are superbly drawn and are accompanied by a smashing sound track by the same mastermind who composed the Streets of Rage music. For great side scrolling adventure, here is a game to play. If the controls were better, it would be a nine.

Anybody who is anybody remembers Caveman Ninja in the arcade. Now you can play it at home on your Super Nintendo Entertainment System as Joe & Mac! This is a two-player simultaneous game, something the Super NES lacked at first, and uses the highly advanced graphics processor of the SNES to create large enemies that can fill over two screens. Two players can cooperate or compete!

I really enjoyed the visual appearance of this game. Although the overall concept has been somewhat overdone, the new look and feel that Joe and Mac possesses makes it stand apart from the crowd. There are many shortcomings to the play, but if you're an action fan who enjoys good looks, then this one's a winner!

It is good to see that companies are starting to make games that are fun to play. Joe and Mac, besides being one of the best two player simultaneous games, has some of the most humorous animations to date. This great game is fun for all and, with the bonus rooms and secret levels should offer plenty of challenge.

Joe and Mac is kind of a let down. The graphics are incredible but the animation is somewhat choppy. It looks like they're going through a hidden probe light. The game play is fine, but it's too easy. I was at the end-boss after a couple of plays. They also took out the R-Type style power-up of the weapons.

I am sad to say that Joe and Mac is not nearly as fun as I thought it would be. While the graphics are fun to look at, the control is not the best I've seen on the Super NES, and leaves a bit to be desired. The sound is excellent, of course, but without the game play, even a 16-Bit cart is average.

## ZELDA III

Theme: Adv. Available: Mar.

No. of Levels: NA Megabits: 8

Follow the further adventures of Link, hero of Hyrule, in his new 16-Bit extravaganza! Agnim, the new powerful wizard in town, has placed Princess Zelda and Hyrule under a spell of Darkness. As Link, you must explore the two sides of Hyrule, Light and Dark, to rescue her. Gather many mystical items and learn several spells to overthrow the evil Agnim. Zelda III features the classic battery back up for avid gamers.

This game lives up to all of the expectations one could have in a Super NES sequel. Like Super Mario World, however, Zelda 3 may disappoint some who expect radical changes in the overall play mechanics. No such luck here, but for a solid adventure that's good with lots to do, you can't do much better than Zelda 3.

Wow! This is the closest a game has ever gotten to a perfect 10. Everything except the graphics gets the best score possible. Unfortunately, Nintendo let us down when it comes to the graphics as there is nothing spectacular here. Still, this is the best available and one which everybody should (and will) want to buy!

Zelda 3 is one of the best video games that I've played in years. The graphics aren't the best for the Super NES, but they are an improvement over the first two games. The game play is absolutely awesome. Tons of items to find and a super long quest. Love it! Yet, the game does seem too easy when it's in English.

Zelda III: A Link to the Past is a brilliant masterpiece from Nintendo! This game surpasses the first in every respect, right down to the last detail. While the game gives out far too many clues to completing the quest along the way, the game is awe-inspiring. I can hardly wait for the next chapter in this epic!

Super NES - Disney

## THE ADDAMS FAMILY

Theme: Action. Available: Mar.

No. of Levels: NA Megabits: 8

They're crazy, they're kooky, and they're the Addams Family for Super NES! Take a leap to the wild side as you control Gomez and try to rescue the rest of the Addams Family from Abigail Craven spell. This is a side scrolling action/adventure game full of surprises, power-ups, weapons and fun. Of course, Tully and the final Boss, the Judge, will be waiting for you if you manage to rescue this spooky clan.

Sure it has a great license, but how does the game shape up? It's basically your side scrolling action/adventure, with a theme that ties into the Addams Family characters. Unfortunately, the action introduced very little that could be deemed new or original. If you like the movie, you may find this title worthwhile, but I didn't.

The Addams Family is a good, fun game. It has the right blend of action and adventure and is not too difficult as to become frustrating to the younger players. Very good graphics and plenty of surprises are welcome features in this excellent take-off of the popular movie. A bit too easy for the better players though.

While the Addams Family was a flop for the Turbo, this cart has some cool features. I like the side scrolling Mario-type game play, but it gets repetitive rather quickly. The graphics are cool but Gomez's head is way too big for his body. The game play is good but seems slippery at times. Things could be better.

Wow! This is a fresh breath of air in a morbid market! The Turbo version disappointed me, but the Super NES version blows me away! It is not by any means the best game to hit the scene, but compared to great games like Big Run and Bombuzal, I will love the Addams Family! It is definitely above average.

NES - HOT-B

## BLUE MARLIN

Theme: Sports Available: Now

No. of Levels: NA Megabits: 4

Never since the appearance of Black Bass last year has any fishing simulation ever come close to the true fishing experience. Now, HOT-B has returned with a smashing sequel, Blue Marlin! Select your line weight, lures, location and strength. Troll for schools of fish in the lake of your choice, and prepare for the fight of your life! Once you get a bite, you must pull, lock up and torque the line as you reel in your prize!

This game, like its predecessor, lacks flashy graphics or fancy game play, but like more addictive titles such as Tetris, it makes up for it with play and technique that are worlds apart. Most of the 8-Bit titles now on the market. This is great, leisurely-paced fun that will disappoint only the most battle-hardened jet jockies.

While I would rather be doing the real thing, Blue Marlin is about as good a simulation as you will find on a home system. The big lunkers are out there somewhere but they are not easy to find, hook or land. Definitely an addictive game which keeps the player coming back for more. Play it just for the halibut.

Blue Marlin is a good sequel to Black Bass. While a video fishing game isn't as conventional as other themes, this cart has an addictive quality to it. I'm not impressed by the graphics or sounds quality at all. Unfortunately, this isn't my type of game and I'm bored with it very quickly. Fish for compliments from Ed.

Blue Marlin, the sequel to Black Bass, is a marvelous fishing simulation for the Nintendo! From picking your lure, piloting your boat and casting your fishing rod, Blue Marlin will catch your attention time and time again. Ponder your strength and stamina by working on smaller fish, compete with friends, what else?

CIRCLE 11 ON READER SERVICE CARD

Join Muttley and all of your favorite Hanna Barbera cartoon characters in the greatest race of all time, the Wacky Races! Dastardly is hurt, and Muttley (you) must rescue him! This is not a racing game despite its definitive title. Instead, it is a side scrolling action game with four different power-ups and many enemies to conquer. On top of that, you must go through 10 harrowing levels of wacky fun.

Don't know the cartoon (I'm a Ren and Stimpy man myself), the game play is totally lacking. It's another entry into the side scrolling action sweepstakes, with power-ups, risk incentives and more. There's not a lot here that can be called new, but fans of the genre, as well as younger players, will probably enjoy it.

I remember these cartoons and the game does a great job of recreating the original. All the characters are here and I think the idea of making NES games like this is a great idea as it provides a lot of clean fun and enjoyment for the younger player. It's a straight forward type of game that succeeds in it's game concept.

Now here's the original hot dog! You won't feel like a wienie playing this 8-Bit game. Muttley is one of my favorite classic cartoon characters and bringing him to the NES is a cool idea. The game play is pretty basic and the graphics are good, but the best thing about the game is that it is really fun to play. Is Yogi next?

This is a really cute game with cool sound effects. The graphics are funny, and the characters are well drawn. Muttley will bring you back to your early childhood years when he snickers in his own special way. The control is good and if you loved the Saturday morning cartoon, you will like the Nintendo game.

The second in the Dungeons and Dragons series, Pools of Radiance, makes great strides over its predecessor, Heroes of the Lance. This game is played in the same overhead perspective as the mega-hit Ultima Exodus! The quest is incredibly large and complex, so it may not be ideal for younger gamers. Watch for further installments into this great epic as FCI translates new adventures from the computer classic.

I've got to admit that these games don't normally deliver real thrills for me, but this title has been put together with a much better scope than the first entry in FCI's AD&D series. From the set-up to the graphic and sound support, this game excels over the first title in almost every way, but remains a longshot in my book.

FCI, long known for creating the type of game which requires players to use their mind rather than their reflexes, has just released another very challenging cart. While not meant for joystick jocks, like Martin, if you like to use your brain once in a while this is a good game to pick up as it will provide hundreds of hours of fun.

Pools of Radiance is OK if you like running around in a maze for countless hours. I just do not like this type of game. Having poor graphics and extremely repetitive music doesn't help either. Good NES carts are definitely becoming a rare breed. This is, unfortunately, one of the majority. Doesn't look too radiant to me.

Hey, adventure lovers! Dungeons and Dragons: Pool of Radiance is here, and it rocks the socks off of its predecessor, Heroes of the Lance. The first game was inadequate, but this title really has adventure in the classic Ultima style. The overhead perspective, experience points, mysteries, clues and game play are solid.

Originally on the Amiga computer, Chuck Rock has finally come home to the Genesis! All of the cartoony graphics from the computer are beautifully translated to the 16-Bit king, along with the humor. You must control Chuck Rock through several levels of hilarious antics, trying to find your way home. Use your belly-butt attack and "Chuck" some rocks at the enemies. This is fun from the word go!

Not since Kato and Ken for the PC Engine has a game been able to entertain me while also delivering a heavy piece of game play. Chuck Rock introduces some interesting new concepts to the standard action/adventure genre and it embraces, representing one of the best such titles since Sonic. This Chuck is rock solid!

The Genesis needs more games which provide lighter entertainment. Chuck Rock is a good example of such a game as the animations are funny and well done. The quest is long enough to keep you busy for some time and it has a difficulty curve which is set perfect for the average player.

Chuck Rock is one of the funniest games that I've played in a long time. The graphics are very cartoony and there are plenty of hilarious animations. The game play could use a little fine tuning but it is still very fun to play. Let Chuck Rock stand still for a few minutes for some really funny animations.

Chuck Rock is a great game for anyone who likes action and laughter! From the moment you start, you will be laughing hysterically! The graphics are comical, and the music jangle. Try and walk underneath a dinosaur if you like a real challenge! By the way, bring a gas mask and get ready for a surprise!

## Genesis - Electronic Arts **MARBLE MADNESS**

Theme: Race Available: Now  
No. of Levels: 6 Megabits: 4

From the cult following in the arcade, to the Nintendo Entertainment System, to the GameBoy portable, Marble Madness has finally rolled on over to the Genesis! Control your marble as you race through six different wacky courses full of obstacles and challenges. Try the Practice Race, Beginner Race, Intermediate Race, Aerial Race, Silly Race, and finally, the Ultimate Race to reach the last goal!

While I was one of the biggest fans of the coin-op, this version was nearly pixel perfect in its appearance, falls way short in actual game play. Like nearly every rendition, the control of this 16-Bit update is truly lacking. Together with only six rounds of play, this great looks of MM could have made this cart a winner.

Marble Madness and Q\*Bert suffer from the same type of problem in control. Both games are excellent in graphics and concept but neither, in any form, for any system, could get by the quick frustration which comes when you move the control in the direction you want it to go and then it goes off in a slightly different direction.

Marble Madness is a good translation for the Genesis. The graphics are pretty cool and the sound effects are very good but the game play is horrible and the control is non-responsive. This is a hard game to bring over because of the lack of a trackball and ends up being a disappointment. Only an average arcade conversion.

Marble Madness is just that, sheer madness! Very few Marble Madness conversions can stand up to the coin-op, but this comes close! Sad to say, however, the GameBoy version is much better than the Genesis game. Even without the color, the GameBoy game has much more control. Sorry!

## Genesis - Namco **ROLLING THUNDER 2**

Theme: Action Available: Now  
No. of Levels: 11 Megabits: 8

The sequel to the original arcade hit has appeared on the Genesis! You have successfully rescued your girlfriend, who is also your partner, and have started a well-deserved vacation, when you receive the call: a new terrorist group has begun stealing satellites from Earth's orbit, creating world-wide chaos and disruption. Both of you are well trained experts against terrorism, but these are not your ordinary villains...

From the awesome execution, incredible graphics and truly tremendous cinema storyline, Rolling Thunder 2 is one of the most challenging and entertaining action carts to appear on the Genesis. Sure, you still can't shoot while you're in the air, but all in all, this game has action and adventure that can't be matched!

I loved this game at the Summer CES and Namco has fine-tuned it to perfection! As a shooter it is excellent, but as a two player cooperative game it is superb! Top notch graphics, fluid animation and a quest which goes from average to hard the further you get into it. The password is a nice extra!

This is one of the best action carts that I've seen for the Genesis. The graphics are great and the music is absolutely awesome. The control is almost perfect and the game play is arcade style to the core. This is one challenging cart and will keep even the best gamers going. Cool cinema displays top it off.

Excellent! Rolling Thunder 2 is awesome! The graphics rival the coin-op, and the two-player option rocks! The cinemas are great, and the music is fairly decent. Even though the game itself is just a rehash of the first, Namco made many improvements. As a side scrolling shooter, Rolling Thunder 2 is a charmer!

## Genesis - Virgin Games **TERMINATOR**

Theme: Action Available: Now  
No. of Levels: 8 Megabits: 8

The future is here. Mankind is destined to become extinct unless you, Kyle Reese, can stop the SkyNet computer revolution. Their fondest creation, a Terminator (Cyberdyne Model 101), has been sent back to the year 1984 to terminate the human leader's mother, before she can give birth to him! Follow the Terminator through each of the memorable scenes straight from the movie cult classic. Awesome cinemas!

This game has a cool pace and graphics that match the tone of the action from the movie. Although the game play is a bit abbreviated, the concepts behind it expand upon the Terminator mythos and really charge you into the adventure. There are some minor problems in control, but overall the action is top-notch!

Virgin is on a roll! First Chuck Rock and now a great action shooter featuring Arnie himself. This soft has been fine tuned to perfection and is a must have for all Genesis players who like a good action game. Digitized stills add to the overall game as does good control and great game play. Challenging, yet not too difficult.

He's Back, and Arnie's even badder in 16-Bit. The graphic and sound quality of this cart is incredible. The music is full of heavy bass lines and pounding drums. The visuals are top notch and feature well animated digitized graphics. Great game play and fast pace from beginning to end make this cart a winner.

Wow! The movie was great, and the Genesis title is nearly as good. Terminator is just about the best story line for a movie, as well as a rocking Genesis game! Do not worry, this game is not another movie-turned-video game disappointment. The graphics are splendid and the music has a vivid beat.

**TWO CRUDE DUDES**  
 Theme: Action Available: Now  
 No. of Levels: 6 Megabits: 8

Horrible explosions rocked the city of New York to its knees in the year 2010. These nuclear blasts destroyed the city, and reconstruction did not begin until after 10 years had gone by. Amidst this chaos, a new order emerged, called "Big Valley." You and a friend are Biff and Spike, two crude mercenaries on a mission. You must stop the impending invasion of Big Valley and collect big rewards along the way.

This game never really did develop a following in the arcades, but that doesn't mean the concept is bad. You've got street fighting in front of a scrolling backdrop that looks pretty good on the Genesis. There's not the same level of depth in the fighting as say, Street Fighter 2, but the action is decent.

If you look at this game as a serious cart then it falls short of one's expectations, but, if you look at it as a spoof on the Double Dragon series and then aimed at the younger player, you see it's real potential. It's loads of fun as a two player cooperative game and not easy enough to keep the kids interested.

Two Crude Dudes could have been a really cool game if more time were taken to polish it up. The graphics are kind of overdone and the animation is choppy. The game play is OK but gets really repetitive after a few rounds. The bosses are cheesy and don't offer any real challenge to the better players.

Two Crude Dudes is far too easy to really attract serious gamers even on the hardest level, the game is simple to finish! The graphics are OK but the music is a little corny. Still, kids will go gaga over the cartoonish feel and the easy to learn controls. Since it is a two-player simultaneous game also, it deserves a decent score.

**Game Boy - Accolade**  
**MISSILE COMMAND**  
 Theme: Action Available: Mar.  
 No. of Levels: NA Megabits: 1

This is the arcade classic from Atari, miniaturized down to the GameBoy screen. You are the commander of two Patriot missile outposts. Your mission: protect your cities and outposts from the SCUD missiles shot from the enemy. Your objective is purely defensive; you cannot project your own missiles at the enemy. Watch for enemy aircraft, smart bombs, and of course, the deadly SCUD missile.

This is a classic coin-op that, while losing some of the challenge, holds up quite well on the GameBoy. The action is overly complex, in fact, it eventually becomes repetitive, but for anyone who wants to relive the end of the world like they did in the arcades, Missile Command keeps its promise until the very end!

Now I've seen all of the classics. Space Invaders, Dig Dug, Pac Man and now Missile Command. My question is why? I thought they were great 12 years ago but now they are old news. I know why, since Nintendo is pushing the GB as a yuppie toy these old folks, who have lost their reflexes, can relive old memories!

Of all the games to bring over to the GameBoy I would never have chosen this one. The classic arcade game was good for its time and the track-ball control was cool but when you take the color and the control away and you don't get much of a game by today's standards. The game play is kind of good but not worthy of praise.

Surprisingly enough, Missile Command is a good GameBoy game. Why not? The original never needed any flashy colors or high-tech graphics. Nor did it require special effects or jammin' sounds. Since it does not scroll, the terrible blurring effect will not occur. Take it from me, very few games can play well on the GameBoy.

**Game Boy - Konami**  
**GRADIUS:INTERSTELLAR ASSAULT**  
 Theme: Shoot Available: Now  
 No. of Levels: 6 Megabits: 1

Nearly everyone is familiar with the Gradius series, and finally, the second in the series has been translated to the GameBoy. Soar through six challenging levels loaded with power-ups and invading spacecraft. Though it has been a while in the making, this arcade classic is now portable! Take in the crisp graphics, a new music soundtrack, and the control you have come to enjoy from the Nintendo GameBoy.

I like the Gradius series and the GameBoy version does a decent job of expanding on what has become one of my favorite shooters. There are some problems with identifying obstacles in certain rounds due to the limitations of the GameBoy, but overall, the action, graphics and execution deliver all that is promised!

Fast action shooters are hard to do on the slow moving GameBoy screen. While Konami has done everything possible to minimize this problem, blurring does pop up once in a while. Still, the game does play well and all of the fun and challenge is in there. I like it as it is and think you will too. The action is fast and furious.

Gradius IA is one of the best GameBoy shooter that I've seen. The graphics are really good for being black and white and the music is some of the best that Konami has ever done on the GameBoy. The power-ups are cool and the end bosses are big and mean. I wish that the screen didn't blur so much though.

Gradius for GameBoy! Hoo-boy. It is a decent game, but the blurring ruins some of the game play. As a matter of fact, in certain areas, you may as well not even guide your ship because it becomes nearly invisible amidst the chaos. Take your chances with something less volatile like Missile Command.

## Game Boy - Capcom

### MEGA MAN II

Theme: Action Available: Now  
No. of Levels: 10 Megabits: 2

Any Mega Man fan is sure to love this game! Mega Man 2 for GameBoy takes some of the best bosses from Mega Man 2 and Mega Man 3 on the NES and creates a whole new mega-experience! One new weapon is the Rush Pogo Stick, including Rush Coil, Rush Jet and Rush Marine. After defeating the eight main bosses, you must go after Dr. Wily in his Skull Laboratory. Just wait until Mega Man 3!!

All of the technique, action, lively graphics and animation from the NES versions of Mega Man have been captured for his second GameBoy adventure. Mega Man 2 on the GB is a great addition to the portable's library of adventure titles and definitely a sure-fire pleaser for anyone familiar with the Mega Man saga.

Mega Man is a natural for the small screen and Capcom knows how to do it right. Great game play, good control and decent music are but a few of the great parts that make up this super soft. Having a portable Mega Man is cool and this version is the best yet! How will they be able to pack a 4 meg Mega Man 3 in a GB?

Mega Man is back for his 2nd adventure for the GB and he's looking better than ever. Even though this is the GB we're talking about the graphics are very well done and the music is also impressive. The game play is near perfect and they've even thrown in the slide move from Mega Man 3. Mega cool stuff man.

Ahh! Mega Man 2! This is a good game for the GameBoy. Capcom continues to amaze us by creating nearly impossible games for difficult systems (i.e. Street Fighter 2 on the SNES, p. 84.) The control is just as unbelievable as the Nintendo version, and the only thing it lacks is the vibrant colors.

## Game Boy - Parker Brothers

### BOGGLE

Theme: Puzzle Available: Now  
No. of Levels: NA Megabits: 1

The popular dice game of yesterday comes to the present on the GameBoy. This vision of jumbled word fun is from Parker Brothers, the leader in Video Board Games. After the computer electronically shuffles a number of letter dice, you must create words by moving up, down, left, right or diagonally across letters. The larger the word, the higher your score! Find as many words as possible to win.

This game is a natural for the GameBoy with one important problem: it can't play the game right! I like Boggle and the computer-assisted play on the GB works just fine, but the whole process of entering responses to the key letters is too tedious and most of the words aren't recognized! Frustrating - not fun.

Boggle is a natural for the Game Boy especially since it is portable. I suppose this is another yuppie game as could you picture two yuppies 'fighting' it out as they 'do lunch'. Not too exciting and even worse since it's dictionary is too small. It is quite easy to come up with normal words that it hasn't heard of.

No you don't have to shake your GameBoy before playing this version but it surprisingly plays a good game of Boggle. There's a good variety of games that you can play. My favorite is the Category Mode. This game isn't spectacular but does have some good qualities. Needs more than 10,000 word vocabulary.

Boggle is just about the worst game I have ever seen for the GameBoy! The only thing good about it is the idea. This is a good travel game, with one exception: do not expect the GameBoy to recognize even 50% of completely valid words. At least if you have the real game, you could double check a dictionary.

## Lynx - Atari

### TOKI

Theme: Action Available: Mac  
No. of Levels: 8 Megabits: 2

Toki is one of the early humans struggling to survive in a chaotic, prehistoric world. Toki and his soul mate were relaxing one day, when a great castle rose from the mountains. His girl was kidnapped and he was mutated into an ape. In this form, Toki can shoot energy from his mouth and defeat enemies. He must rescue his girl before the evil Dark Lord uses her in a supreme sacrifice to the Dark gods.

Anyone who likes this cult classic of an arcade title will finally be pleasantly surprised to find the very best translation yet on the Atari Lynx. The action in this game is even more fun on the portable screen, allowing me to get into the action even more than I did at the arcade! A great game that's a must for Lynx owners!

Atari is coming up with quite a few good titles for it's portable system. Toki is definitely one of them as it has good, controllable game play and is difficult enough so that players won't blow through it on their first try. Very good graphics and true arcade play! Definitely a must have for all Lynx owners.

Toki is a good arcade translation for the Lynx. The game play is just like the arcade, not a bunch of made up levels like the Genesis version. The graphics are colorful and well animated but the music isn't too great. I wish that Atari would invest in some good sounds and music when a game plays this good.

Go Lynx! Toki is a marvelous translation from the coin-op to the Lynx. The color is vibrant and delicious, and the control is outstanding! I really enjoyed the arcade game, and was somewhat disappointed with the Genesis version. This, however, is a true translation that even feels like the coin-op. Good job, Atari!

# GAMING GOSSIP

...Super NES CD-ROM Update...Sonic 2 Lands In CD, Cart and Arcade...Sega/JVC Introduce Wonder Mega...  
...Color GameBoy Nears Completion...Acclaim Acquires Arena...New Street Fighter 2 Game...CES Picks...

...Blow my quarters and power me up, 'tis I, Quartermann, back once again with a bulging bag of booty straight from behind the closed doors of the video game heavy hitters! We've got a bumper crop of very special gossip from the floor of the Winter Consumer Electronics Show, where the rumor mill was in overdrive and yours truly was putting in overtime...The big news at the show was the first disclosure of information pertaining to the Nintendo CD-ROM system. Not only will this new super drive function as a separate co-processor that speeds up the action on the big 'N's 16-Bitter, it will also be upgradable to be compatible with the Philips CD-I unit! What packs an even greater punch, however, is the fact that Nintendo plans to get their mega peripheral into your home for under 200 bucks! Although some rumors indicate a delivery schedule that will land the system on store shelves prior to Christmas this year, the Q-Minator sez "Don't count on it!"...

...Thrusting into other CD gaming news, the Q-Mann has heard rumors from sources within Sega that the upcoming release of their Mega CD drive will be accompanied with Sonic the Hedgehog 2 as the pack-in! Sonic will also make sequel appearances in both a cartridge based game as well as an arcade game on Sega's System 32 that invites multiple players to assume the role of different colored Sonics! Way cool!...In other Sega CD developments, the Genesis/CD-ROM hybrid now being created by the technical wizards at JVC has been given a working title: the Wonder Mega. Stupid name for a super system...Joe knows tomatoes...Q-Man-Fu sees Batman 2 as an adventure RPG on the Nintendo and Super NES...

...Riding high on the first info of a color GameBoy from Nintendo last year, Quartermann has discovered that the machine is now reaching the final stages of development, with certain suits gaining access to preliminary discussions with the big 'N' during the recent CES in Vegas. The unit, which is rumored to be maintaining the same basic size and structure as the original GameBoy is being called (are you ready for some originality???) the Super GameBoy! The device is rumored to be set for a late '92 release and could come in under the \$100 magic mark at toy stores near you! An unconfirmed report in to Quartermann also has this powerful portable using a dot matrix screen similar to the one employed in the GameBoy and having full compatibility with your original black and white and grey carts. The Q-Mann throws Nintendo a big yawn for that, but the concept of a new color portable gets me tranked, especially when you consider the long list of developers who will produce for it...

...Acclaim has devoured Arena software in an attempt to keep their expanding empire on the cutting edge! Look for Alien 3 to turn up on other formats outside of the Genesis as well as in other more exciting places...Speaking of Alien 3, did you see that story about Ms. Ripley getting attention from an anxious alien in the new flick? Don't know about you, but I don't buy it...Look for Street Fighter 2, the ultimate 16-Meg fighting game for the Super NES, to turn up again in the arcades with a new name! Tournament Street Fighter 2 will include all new moves as well as some unique characters to go at one-on-one! Quartermann doesn't know yet if Capcom will include some of these enhancements in their 16-Bit SNES version, but I wouldn't be surprised!...

...In closing, Mr. Q. would like to give all of his little friends a recap on what was the best of the best at the CES...Street Fighter 2 was buff on action like no other 16-Bit title, even if it was only 25% done, Wings 2 was a great fighting simulation in the same spirit as Pilot Wings with probably the best overall use of Mode 7, Splatterhouse 2 gets my vote as one of the coolest looking Genesis carts, and Turtles 4 ranks right behind Smash TV as one of the best arcade to home conversions this pair of eyes has ever seen...That wraps it up for this issue my Q-Fans! Remember to always go for the big points, never miss that power-up and try to have a lovely day...

## NINTENDO RELEASES SPECS ON SUPER NES CD-ROM...!

At the Winter Consumer Electronics Show Nintendo quietly sent out a press release on its upcoming Super Nintendo CD-ROM drive. This announcement revealed, at least partially, what kind of unit Nintendo is planning on bringing out.

From the sketchy specifications, the Nintendo CD-ROM appears to be capable of doing many of the same tricks that Sega's Mega CD-ROM unit can do. All for a price that is almost half of what Sega's unit is selling for in Japan.

### CO-PROCESSOR

Sega has gone to great extremes to include a state-of-the-art co-processor into their unit. This 16 bit chip runs at a very fast 12.5 MHz and can also do biaxial scaling, rotation, zoom and fade. Full motion video (at least 1/2 screen) has already been demonstrated. Nintendo does not give a lot of information about its co-processor other than the fact that it will allow full screen full motion video. Whether it will run faster (it can't run any slower!) and help cure the problem of slow-down and flicker has not been revealed.

### SYSTEM MEMORY

Sega's Mega CD-ROM comes with 6 Megabit of RAM. Nintendo claims that their unit will have 8 Megabit. While larger, this is mainly a numbers

*An artist's rendition of Nintendo's new Super Famicom / S-NES CD-ROM.*

game as both can more than handle any type of game information.

### ACCESS TIME

Both systems are utilizing the current state-of-the-art in CD-ROM drives. Access speeds are virtually identical but what Nintendo is not saying is how reliable their drive will be. Sega has gone to great measures to get a drive which will be error free over a very long period of time and this adds to the expense of the unit.

### CD-I COMPATIBILITY

CD-I is rapidly becoming the CD standard for interactive video. Nintendo is working with Phillips in creating

a special CD-ROM XA "bridge format" and this will allow the Super Nintendo CD games to play on the Phillips CD-I hardware.

### OTHER FEATURES

The Super NES CD-ROM will be the same size as the Super Nintendo game system (9.5" deep, 7.9" wide and 2.9" high). It will connect to the EXT. port on the bottom of the Super NES, and it will take on the stacked appearance as Sega's system/CD-ROM drive. With the units stacked on top of each other, the Nintendo CD-ROM will not have a lower price 'flip-up' cover as found on the NEC CD-ROM. The access door will be motor driven, like Sega's unit. Like the NEC CD-ROM, the Nintendo unit will require a System Cartridge which contains the RAM, ROM and their graphics co-processor. This System cartridge will plug into the cartridge slot on the Super NES.

### PRICE

The biggest surprise is the price. Nintendo claims that their CD-ROM unit and System Cartridge will cost only \$200. The Sega CD-ROM is currently selling for \$380 in Japan.

### AVAILABILITY

Sega originally hinted that their unit will be available this Summer. Now, they are stating some time in the second half. Nintendo states January 1993, but sources are saying they will push it up to September 1992!

*The CD-ROM will connect to the Super Nintendo through the port on the bottom of the Super NES.*

# DICK TRACY

## EXTRA! EXTRA! DICK TRACY IS BACK!

With a completely new story line, the Dick Tracy Game Boy version picks up where the popular NES game left off. And this time, he goes where ever you and your Game Boy goes.

Big Boy Caprice has escaped from prison and within hours a crime wave has hit Chicago the likes of which have never been seen. It seems that all the filth of the city has crawled out from beneath some slimy rock... the Brow, Pruneface, Flattop, Shoulders, and the rest of their ruthless cohorts are on the rampage again.

But worst of all, that dirty dealing Big Boy has kidnapped Tess Trueheart!! Suddenly, Tracy's two-way wrist radio breaks the silence. "Calling Dick Tracy! Calling Dick Tracy!" He springs from behind his desk and bursts through the squad room door shouting "O.K. boys, let's go! This could be our lucky break!"

# GALOOB DEMONSTRATES GENESIS GAME GENIE COLOR GAMEBOY IN DEVELOPMENT

Lewis Galoob Toys Inc., U.S distributor of the Nintendo Game Genie, demonstrated at the Winter Consumer Electronics Show a working prototype of a new Game Genie for Sega's Genesis game system. Unlike the Nintendo version, the Genesis Game Genie carries Sega's Seal of Approval and it is a licensed Sega product! That means it is being done with the blessings of Sega and there will not be any lawsuits down the road.

The Genesis Game Genie has the same shape as a Genesis cartridge but it is about one inch longer. Like the Nintendo version, the Genesis Game Genie fits into the cartridge slot on the system, and the game cartridge plugs into the Game Genie. When you turn on the system a Game Genie intro screen appears and then it switches to the code screen. This screen has the input letters and numbers and five empty lines to type in the codes. Since Genesis games are generally more complex than Nintendo carts, there has to be a wider variety of input codes. To be able to do the same things in the Genesis games as on the Nintendo carts, most of the alphabet plus all of the numbers are needed in order to provide proper input of all the programming variables. For instance, in the working CES demo, three lines of codes were necessary to make Sonic the Hedgehog invincible. A spokesperson stated that Galoob plans to offer a wide variety of codes in order to do all of the cool tricks that the Nintendo version allows - skip levels, more

***Galoob's new Game Genie for the Sega Genesis includes a book of codes for over 100 games. Best of all, the Game Genie will be coming out with Sega's Seal of Approval!***

weapons, infinite lives and stronger powers.

Galoob plans to have the Genesis Game Genie ready in the near future. It, tentatively, will be priced in the \$50 to \$70 range. Like the Nintendo version, a book containing codes for over 100 of the most popular Genesis games will be included in the Game Genie package. Updates for the newer games will be made available to players on a regular basis.

We were very impressed with the test codes that Galoob had for the Genesis games. Since Code Masters are also doing the Genesis codes we can expect some real awesome tricks to be coming out soon!

One good thing about the Consumer Electronic Shows is the fact that we can sit down with many of the hardware and software developers to talk about some of the new products being developed. One item which came up from several different, reliable sources is that a color version of the GameBoy is currently in development.

With an estimated target price of only \$99 this little beauty comes with some very impressive specifications. Currently the color GameBoy is scheduled to be downwardly compatible. That means it would be able to play, not only the new, yet to be developed color cartridges, but it would also play, in black and white only, all of the older Game Boy cartridges! Also, in order to keep the price down, the new color GameBoy would use a low resolution color screen. One with less quality than either the Game Gear or Lynx. This being the case, it wouldn't be possible to add a TV tuner as the screen wouldn't have a resolution high enough to show TV broadcasts. Details are sketch at the moment but stay tuned as more information is on it's way!

***The Genesis Game Genie looks like a cartridge and loads into the system a lot easier than the NES version.***

***Hmm, the Game Genie sure looks about the same as one of the extender boards to play Japanese games.***

***Turn on the Genesis and the Game Genie logo screen appears, followed by the code input screen.***

# INTERNATIONAL OUTLOOK

**WORLD'S FIRST 8 MEG  
PC ENGINE GAME!!**

Leave it to Konami to set new game standards no matter what system they are programing on! This time they have upped the maximum PC Engine cartridge memory from 6 megabit to a whopping 8 megabit! The game is one which the U.S. has never seen, and that is too bad as it is a cute spoof on the Gradius series of shooters. Instead of bad aliens, you get to blow away clowns, parrots, cats and other friendly looking but very mean animals. This is a spectacular conversion of a little known arcade game and is one of the best PC Engine shooters to come out in a long time.

Hopefully the new Turbo Tech. will look very long and hard at bringing this game over to the U.S. Rather than do old ho-hum titles (Gradius) which have been done on every system perhaps they will decide to try something new. They won't be disappointed!

## Konami / Super Famicom **AXELAY**

One of the most intense shooters ever conceived is making a grand appearance in the homes of Super Famicom owners! This game could only be Axelay from those technical wizards at Konami! Pilot your advanced fighter, the Orius GL, on a mission to rid the galaxy of the invading alien forces!

Axelay features some of the most intense graphics ever seen in a home game! Planets in the background rotate with ease! Bosses are animated fluidly and feature ultra-vibrant colors and there is a multitude of power-ups! Even the fantastic 3-D stages where you skim over the top of a rapidly changing planet! Axelay is sure to be a success when it hits the store shelves later this month in Japan.

*Axelay is a visual and audio tour-de-force. Everything in the game is intense from beginning to end! Even the slowdown that plagued earlier shooters has thankfully been solved!*

## Telenet / Super Famicom **SUPER VALIS**

Yuko and Lena have returned once again to battle against Magenshuma, the evil ruler of Vecante. Although the story may be the same, Super Valis has new levels and more powerful magic to cast. Your sword can also be powered-up five times to really blow away the enemies. Coming soon!

## Varie / Mega Drive **F-1 HERO**

Already in the works for the NES, Varie is also working on a souped-up version of this great racing title! Choose from three excellent street racers and take on the best racers in the world! When you're ready for some great racing action, check out F-1 Hero for your Mega Drive!

*The graphics and sound effects literally jump out at you! The race cars all handle differently to add to the realism of the cart! Very intense!*

## Data East / Super Famicom SUPER BIRDIE RUSH

*Take a quick birds-eye view  
of the course as the screen  
zooms in to the hole you will  
be playing next!*

Now that there are over a half dozen Super Famicom baseball games out in Japan, developers are now turning their attention to golf games. Super Birdie Rush is Data East's version of how golf should be played. While not revolutionary, this version does offer a good playing game for the average player. No complicated set up moves and the swing meter is very easy to get used to. There are plenty of options to choose from including course length, club selection and type of green to putt on. The view is set in an overhead perspective and insert screens pop up to show side views when needed. The holes are well designed with plenty of woods and other hazards to keep players coming back for more. A well designed game!

# POSSESS OR BE POSSESSED

## Sega / Game Gear PHANTASY STAR ADVENTURE

Ever wonder what type of games players have been downloading and playing through Sega's modern games network? This is one of them and don't let the Phantasy Star name fool you. It is not a heavy duty RPG as the name implies, rather it is a quest game which is played more like a board game. In this you roll the die to determine how many screens you will move. The directions of movement are the basic north, south, east and west and you visit towns, get hints and clues by talking to the people and proceed out into the enemy infested countryside to battle with the enemy (battles are won and lost by the throw of the die!). Not Phantasy Star caliber, but kind of interesting nevertheless.

## Taito / PC Engine TATSUJIN

*All of the awesome weapons, including the devastating doomsday bomb are faithfully recreated in the PC Engine version!*

Over in Japan there is not a shortage of good shooters for the PC Engine as shown by this excellent conversion of Tatsuujin. All of the great power-ups and weapons have been brought over to this version including the awesome doomsday bomb! The action is fast and furious with tons of enemy coming after you. The huge end of round bosses are here and surprisingly very little has been lost in the translation.

Hopefully the new Turbo Technologies will be able to bring more of these good action games over to the U.S. as this was one software category which the old NEC never could get enough of.

# TWO CRASH COURSES THAT

Take two courses that cover a lot of ground in a hurry. Konami® has created stock car survival tests for your NES™ and Game Boy™ so authentic, NASCAR endorsed them exclusively. Not suprising when you have the likes of Winston Cup Champion, Bill Elliott, as game design consultant.

Slide into the roll cage and behind the dash for an unbelievable first person perspective that has you looking over the hood of a 650 hp speed machine. A beast that comes fully equipped with manual or automatic transmission and functional tachometer, fuel gauge, damage light, and speed indicator (also temp and oil gauges on NES).

Keep an eye on them or you'll be using your overheated engine to roast infield weenies.

Select from three different stock cars — Ford Thunderbird, Chevy Lumina or Pontiac Grand Prix (or an Oldsmobile Cutlass for Game Boy). Then "dial in" your racer to match varying track conditions and your personal driving abilities by adjusting tire stagger, gear ratio, spoiler angle, and transmission. But be careful, one miscalculation and you're spinning into the wall and onto a tow truck.

Select your skill level — Rookie, Novice, or Pro. Decide if you want to compete in single races or, if you've got the guts, face the grueling

Championship Season. Use a qualifying engine to duel for pole position. Then be prepared to get throttled by "Awesome Bill from Dawsonville" and a field of NASCAR'S most relentless drivers on the twisting road courses of Watkins Glen and Sears Point or the high banked ovals of Daytona and Talladega (or Atlanta for Game Boy).

If you'd rather trade paint with a friend, use the two player mode with a Game Boy Game Link and another Game Pak.

# Three Statues, a Temple, and What Do You Get?

## EARNEST EVANS

A whole new terror could take over the planet Earth and all it takes to make this happen is three small statues. Explorer Earnest Evans has been trying to avert this deadly situation since the 1930's, and now he is ready to pass the secret down to his grandson, a muscular youth of the 1980's.

"These idols were scattered somewhere around the world by Hastur before your mother Annet crushed its power," Evans told young Earnest. "We found one, but syndicate leader DeMarco's successor Brady Tresidder got another one in Europe. You must find the third one in Mexico and recover the last one from Tresidder."

When the three statues are placed together in a dark temple in Peru, Hastur's counterpart Mavur will be summoned to become one with the planet and roam the universe forever. Young Earnest Evans has set out against time and the Tresidder syndicate to battle giant scorpions, living skeletons and humongous Venus fly traps among others and carry on his mother's fight to control the wicked forces from darkest Peru.

# THE ONLY GAME TO MAKE THE PGA TOUR CUT.

Pack your bags, you're going on tour.

But make it your golf bags. Because it's PGA TOUR® Golf. The only game that lets you make

the rounds with guys named Fuzzy,

the Walrus, Hubie and Fred. In sum, sixty of the best players ever to swing a club.

No matter how you slice it, this is the most realistic Genesis™ golf game ever.

Real players with hole-by-hole tips. Real courses like the TPC's at Sawgrass and Avenel. 3-D greens you can read like an open book. A whole arsenal of special shots like chips, punches, and fringe putts. Even random pin placement.

You think any other game has the PGA TOUR stamp of approval? Come on. Get real.

Instant replay captures every hole-in-one or splash down. Just like TV.

Take a real course in golf. We used the original blueprints that built the TPC's at Sawgrass, Avenel, and the PGA West Stadium Course. Plus the ultimate fantasy course. Anything else you try will be definitely under par.

PGA TOUR Golf doesn't miss a trick. With balls that have backspin and forward roll. More impossible lies than a politician. Hooks and slices that butcher the fairways.

And TV coverage is better than any you'll find on the tube. With spectacular aerial fly-bys. Close-ups of the hole. Multiple angles of the ball in flight. Instant replay. Killer sound effects—crowd applause, club swings, chirpin' birds. Even

Topographic contours reflect even the smallest green wrinkle. If you misread them, watch out for the bogey man.

Trade shots with 60 top pros like Tommy Armour III, Mark McCormack, Mark O'Meara, Fred Couples, Fuzzy Zoeller, and Craig Stadler. Ignore their advice and you could have a stroke.

a sportscaster with tournament highlights but no commercials. If you don't devour all your greens, you'll finish out of the money. And back on the driving range and

practice greens. A battery backup saves everything—games, accumulated earnings, scores. Even PGA TOUR stats for up to 82 golfers.

So why drive anything else when you can cruise the TOUR? Club your way to the top with PGA TOUR Golf from Electronic Arts.

## EGM PREVIEW!

### STREET FIGHTER 2: CHAMPION EDITION

EGM has learned from sources inside Capcom that the number one arcade game is about to get even better! This new version, which is a game in it's own cabinet rather than an upgrade to the existing game, will be starting to trickle into the arcades in late March.

The new game will feature additional memory and with this Capcom has been able to fine tune the already excellent game. Both Capcom of Japan and U.S. have been flooded with thousands of letters and calls from devoted players advising them how to improve the game. They have been listening as this version tries to address all the major problems.

Ever join in on the machine and somebody already there has Guile and is beating everybody in sight. No problem now as you also can choose Guile and then play a round of Guile vs. Guile!

So that doesn't excite you, as you already are the best and have mastered all the moves. Better get your quarters ready as you now can play as any of the bosses! You have seen the machine play their moves but it is back to square one as you now have to discover how to do them! Better learn quick as the next player is trying to do the same thing.

There's more! Just to keep you on your guard, Capcom has gone in and programmed a few new super powerful moves! You'll have to play, play, and play some more to find out

what they are!

Other changes that Capcom made include evening out the powers of the characters. If you're tired of pounding away with your best moves to no avail only to get hit once by a 'stronger' character and nearly die, take heart as this version evens out the powers of all the characters.

The backgrounds have remained pretty much the same. Only subtle changes have been made. For instance if it is daylight when Guile fights, the new version could have the fight taking place at sunset. The differences will be slight but with the old and new games side by side you'll be able to see the difference in the screens.

The characters will also undergo slight changes - mainly in the color of clothing they will be wearing because when you are playing Guile vs. Guile (or any of the other vs. matches between two of the same characters) you will want to be able to see which character you are. Sources say that if you thought Chung Li looked hot in blue, wait till you see her in bright red!!! Wow!

As you can guess the idea of a new Street Fighter arcade game really got Sushi-X excited. You can bet that he will be the first in line to play the new game. Who knows, perhaps he'll be the stranger playing against you! It goes without saying though, that he will have all the moves down pat real soon and, you can count on EGM to get you the details!

Stay tuned, as next month we will continue the story on this new great coin-op and, in the EGM tradition, we'll have pictures and hopefully Sushi-X's hands on test!

### LAST MINUTE ARCADE UPDATE!!

We all know that Sega is frantically putting together a new Sonic the Hedgehog Genesis cart and a hot Mega CD disc, but Sega has just admitted that Sonic will have his own arcade game! More next month!

## VIRTUAL REALITY HITS THE ARCADE!

The thin line between video games and reality is getting even smaller thanks to a new system developed by Spectrum HoloByte, W Industries, and a division of Edison called Horizon Entertainment. The original system, which was developed by W Industries was called Virtuality.

To play, you put on a helmet that simulates your environment. Then, depending on which way you turn your head, the scene around you changes! The visor that you wear to play the game holds the screens that show the game as well as a quadraphonic sound system that has music, sound effects, and voice communications.

One of the really unique ideas is that the simulator allows you to play against other people, including people across the country! Right now, up to twenty simulators can be hooked up like this. If you want, you can also play the game against the computer.

Right now, Spectrum's virtuality simulator is only available in select areas of the country, but with games that come this close to the real thing, you can bet that they'll soon be making their way across the country!

**Games will never be the same  
thanks to Virtual Reality from  
Spectrum HoloByte!**

# Every Game Player Needs Their Space.

In the third millennium, mankind has launched a new experiment: an ultra-advanced artificial intelligence circuit is transplanted into a machine. The result is GCS-WT, a super computer designed to act as the Unifier of human society. But GCS-WT instead turns into a dictator, and begins to suppress mankind. A scientist, Edwin Deace, sets out to counter the evils of GCS-WT. Deace designs a revolutionary twin-seat fighter spacecraft, Sol-Deace, which he will use to destroy GCS-WT and free the oppressed Earth. Deace is assassinated by a galaxy-wide manhunt sent out by GCS-WT, and two surviving young people set a course with Sol-Deace for Earth. In the great whirlpool of fire and heat, the tragedy of blood and oil begins.

## WOLF FANG

Robotech fans will enjoy this latest creation from Deco. In this hot new coin-op game, you suit up inside a massive robot, pick your robot, and take off against a whole horde of enemies!

**Each of the four robots has its own special weapons and abilities. Each one also has its own special weakness, too.**

Some of the robots you can pick can fly or hover while others can move very quickly on the ground. Since Wolf Fang has a two-player mode, you can team up with a friend to cover both areas of the battle field better.

Each of the four different robots has a different level of offensive power and mobility with their body, arms and legs. The more powerfully

**Watch out for this massive boss! Keep shooting at the gun placements to destroy him!**

you can hit with each part, the less mobile it is. If you think you can take the hits, go for a slower, stronger machine. If you want to be quick and deadly with a little less power behind your punch, you'll be more effective as one of the fleetier robotic units.

Wolf Fang has multiple levels of shooting excitement. You'll fight against huge bosses, trucks, and

**Check out these radical weapons you can spring on your enemies!**

even robots similar to your own unit!

One thing you'll have to keep an eye on is your charge. When it starts to run down, you're in danger of getting destroyed! When it gets low, play it safe and attack from a distance. This will make you less likely to get hit and will also give you a better chance of getting out of the way of enemy shots. Use teamwork, and you can be sure you'll make it through to the end!

## LAST RESORT

Horizontal shooters have reached a new high with SNK's hot new Last Resort! You've never seen graphics or action like you'll get in this game! You want huge bosses? You've got them in Last Resort! You want incredible scaling and graphic

effects? You've got them too! You want a huge array of excellent weaponry? Last Resort's got that as well! This shooter's got everything that you want and more!

The graphics and animation in this game are incredibly detailed. For example, the cars on the road in the background on the first level can be blown up even though they aren't an enemy. In the second level, every time you blow up one of the ships,

**Last Resort contains multiple levels with incredible backgrounds and scenery.**

the pilots jump out of their stricken craft to safety.

The game play is similar to R-Type. You even have a sphere that you can attach to your ship and power-up to fire at enemy ships.

Your array of weapons includes lasers, homing missiles and air-to-surface bombs. Each weapon can be powered-up several times, and they get more and more intense with each power-up! Like all SNK games, this one has a two-player mode that will help you get through these intense levels easier.

Best of all, for audio fans, Last Resort has a mind-blowing soundtrack that will really blow you away. Keep an eye out for this game in your local arcade!

**Last Resort uses amazing scrolling and rotation like on this huge enemy!**

# Journey Through an Ancient, Magical World

## exile™

The travels of Sadler begin in a small desert town but take him across a world filled with magic, monsters and adventure! Join the nomadic warrior on his quest to rid his lands of an evil invasion. See the mystic realm unfold before your eyes in the map scrolling mode!

Converse with townsfolk and villagers in the RPG mode to gain valuable information. You will meet a variety of people, from wandering holy men to bold desert bandits. All of whom possess important clues to aid you on your expedition.

But don't forget the action! You'll need all of your skills as a fighter and a spell-caster in the combat mode to destroy the massive armies that await your arrival. Fight well and the land may know peace again!

- Buy weapons and magical potions to increase your strength and vitality!
- Search for powerful magic to defeat the invaders of the desert!
- 3 modes of gameplay; interactive RPG, vast map scrolling and intense hand-to-hand combat sequences!

## SNK FOOTBALL FRENZY

You've seen some hot football games in the arcades, but you haven't seen anything like Football Frenzy from SNK! Pick one of eight different teams and head for the finals! Only one team can take top

**Pick your team and get ready for the playoffs with SNK's Football Frenzy!**

honors. Can your team be the one?

You've got complete control over the plays that your team runs on both offense and defense, and you've got a wide variety of plays to choose from. Pick the right offensive play, and you may be able to catch the defense napping and get away with a big gain. On defense, the right play call could mean the difference between getting a sack or giving up a touchdown.

Of course, you do more than just call the plays with Football Frenzy. You've also got to get your hands dirty with your team on the field. Play as the quarterback and make the choice of who to pass the ball to and when to throw it. On defense, it's your decision whether to rush the quarterback or drop back and guard against a deep pass.

**Large, well-animated figures will run the play of your choosing in this gridiron battle.**

**Touchdown! Now you can get your side ready to make the important extra point!**

Like you would expect, the graphics on Football Frenzy are superior. Your characters are large and very well-animated and the action is very fluid all across the screen, even with this many characters!

It should be no surprise that Football Frenzy has a two-player head-to-head mode. This lets you challenge a friend (or enemy) to see who's the best on the gridiron!

## Capcom CAPTAIN COMMANDO

Capcom's former endorser of many of their games will be coming to the arcade soon. Captain Commando is an intense fighting game where you and up to three friends can take on a horde of radical enemies.

Each of the four characters has his

**Capcom's awesome Captain Commando!**

**Check out these gruesome guys who want to stop Captain Commando and his friends!**

or her own special attack moves and weapons to use on the enemy forces. Of course, you could go it alone, but with the number of foes and the incredible strength and wild moves they have, the more people you have on your side, the better off you'll be!

The characters on screen are very large and well-detailed. The action in the game scrolls smoothly and all of the characters, both your own and your enemies, are very well animated. Audio hasn't been forgotten either. Captain Commando has a great soundtrack and gives you all the intense sounds of your battle.

If you think you and your friends have the guts and the skill to best wave after wave of furious foes in hand-to-hand combat, Captain Commando is the arcade game that you've been waiting for!

**If you can get more than one person on each enemy, knocking them down will be much easier.**

# ROBOCOP 2™

## He's Back To Protect The Innocent.

This sizzling sequel brings back "The Future of Law Enforcement" to face his greatest challenge ever! ROBOCOP returns to rid the lawless streets of Detroit of the deadly new chemical, "Nuke." In 15 slammin' levels, you'll have the firepower of an entire army battalion — which you're going to need, because when OCP unleashes Cain, it's a final struggle of robo-power versus robo-power.

# TEENAGE MUTANT NINJA TURTLES IV TURTLES IN TIME

## TURTLE POWER 16-BIT STYLE!

This is definitely a cart that we were eagerly awaiting and the crew at Konami has not let us down. *Turtles 4: Turtles in Time* is one of the best looking, best sounding carts that we saw at the CES. The animation is absolutely incredible and the Turtles have over 20 different moves through tons of animations for attack, pain and death. The game play is solid and fans of the first and second coin-op will be very familiar with the controls. There are quite a few new moves that the Turtles can perform, such as one we call the Droopy Dog move. The Turtles will grab a Foot Clan soldier by the arm and slam him in the ground. There are also two new games within the cart that can be selected before playing. You can try your skills at defeating enemies in record speed in the Time Trials Mode. You can even challenge a fellow player in the Versus Mode for some rough and tumble *Street Fighter 2* style action!

Bah! Seeing you in action is a joke! Wait until I hit the Super Nintendo in early Summer '92! We will see who is the strongest, buddy!

## MY STRENGTH IS MUCH GREATER THAN YOURS.

Street Fighter fans rejoice! As Sushi-X proudly mentioned months ago, Street Fighter 2 is coming for the Super NES, and it's here! This bold translation is the largest game available for the Super NES to date - 16 MEG! The control, graphics, game play, music and two player competition are faithfully reproduced on the 16-Bit monster, much to the delight of gamers across the globe. This is one title that is guaranteed to be one of the hottest in gaming history! Reserve your copy now!

At the present time, a controller with a standard rectangular six-button configuration is not available for the Super NES. However, thanks to the option mode, the six buttons on the Super NES controller can be configured to work with any company's controller that operates all the Super NES buttons. In the mean time, if the standard configuration shown below is hard to handle, feel free to rearrange it as you see fit.

## YOU BE THE JUDGE!

## THE SUPER NINTENDO VERSUS THE SMASH COIN-OP!\*

SUPER NINTENDO

ARCADE COIN-OP

Hah! Attack me if you dare, I will crush you! My berserker rage is unbeatable, and no man, woman or mutant can stay my wrath! I will prove it the Summer of '92 in homes around the world!

Really? Yet you must defeat Sheng Long to stand a chance! I am the epitome of discipline, and you will be hard pressed to mount an offensive against me. My dragon punch is supreme!

# STREET FIGHTER II

\* The Super NES game shown at the CES was an early alpha cart and, as such, the final game screens could differ slightly from those shown here.

# OUT OF THIS WORLD

*At the beginning of the game, you will see your player go to work. He will take a drink from his soda can and then...BOOM! Lightning hits his experiment and there is a gigantic explosion. This blows a hole in the floor and our hero falls downward into an underground pool of water. Swim to the surface, and the bizarre adventure begins.*

## HELP! I'M STUCK IN ANOTHER DIMENSION!!

At the recent CES show in Las Vegas, Interplay showed one of their new carts under development. The game was originally designed for computers, but with the power of the super NES, it now can be made for a home system! Called Out Of This World, this cart uses the Super NES to its maximum capabilities! It uses real-time polygonal graphics, which allows for fast game play in cinematic style.

During the game, you will find yourself in many different situations where you are trapped, or about to die. You must find the right way out of danger. Once you escape you have to find the next place to go.

At the start of the game, a scientist, Lester Knight Chaykin (you), are heading to your office to do a little work. As you are working on your computer, you are suddenly sucked into the earth by a force caused by a freak act of nature. You have been brought to another dimension where your life depends on your speed and sharp senses. Now, just find your way out!

*While walking down a path, you will see an odd, lion-like creature. When you do, RUN! If it catches you, you will be slashed to pieces!*

*It is very difficult to escape from this cage! If you keep trying though, you will eventually get the "swing" of things!*

*Once freed, find the gun on the ground and start to blow away enemies! Be wary of everything and "everyone" around you!*

# WINGS

## ACES HIGH

### THE DOG FIGHT

Your mission is to clear out enemy planes. You must go one-on-one with the enemy in an old fashion biplane!

### BOMBING RUNS

Another one of your missions is to drop bombs over enemy lines. Your targets include enemy installations. Make sure that you do not get hit by a machine gun shell as you fly low to the ground.

### THE SKY IS THE LIMIT

Prepare to take to the skies and blow away enemy planes in your Sopwith Camel! Thanks to the Super NES, you can do just this with Wings 2. The game is the sequel to the popular computer version of Wings, with a few changes. You no longer get a view from the cockpit. Now, there is a behind the plane perspective that allows you to have a better idea of where your plane is in relation to the ground. Also, you have a top down bombing perspective where you look straight down at the ground from above your ship's wing.

The game takes place in France, in the year 1916...with the dawn patrol.

Once you leave the ground and fly toward the enemy, you enter your own war. It will be a dog fight, and there will be nowhere to hide. There is nothing between you and your enemy except rapid fire shooting and aerodynamically amazing flying maneuvers.

You have to free your sector of enemy aircraft. If you fail, you die. The only way home is to shoot them down before they hit you. There is only blue skies between you and your enemy. It takes more than accurate shooting ability to play this cart. With spectacular digitized graphics this cart is hot!

*Do not let this happen to you!*

Even though this is the first stage, the action is intense. Notice that you must kill many powerful mini-bosses before the real boss.

## STAGE 2

The enemies in this round are very hard to beat. The best super weapon here is the auto-aim vulcan. The boss takes many hits to beat.

## STAGE 3

In this level, you will be attacked by enemy tanks. The boss at the end is also a tank.

Thus, when you see tread marks, prepare to fight.

STRIKE  GUNNERTHE EARTH IS BEING  
INVADED!!!

There was a time of peace that once ruled over the galaxy. However, that time was soon to come to an end. In fact, that time is now. Evil alien forces have started a massive attack on Earth. They plan to take over the peaceful planet, and make its inhabitants bow to their control.

Yet, there are two pilots that are willing to battle against the invaders. These pilots are the best that Earth has to offer, and they fly the latest U.S. war planes.

You can take on these invaders by yourself, or you and a friend can attack them simultaneously. When playing in the two player mode, you can have your ships join together for double the power and challenge!

# THE SIMPSONS BART'S NIGHTMARE

## "EAT MY 16-BIT SHORTS, MAN!"

Finally, the long awaited Simpsons has arrived and animated the screens of the Super NES!

Bart is asleep at night, when suddenly, he slips into a subconscious dreamland and realizes he must fight against the terrors of his own mind!

Now, you (Bart) must brave the streets of Springfield against crazed busses and raving, old women with VERY blunt canes. Swim in the toxic water that created Blinky the three-eyed fish, or be a super sleuth and search for clues to your survival in the dark of night. Watch out for your family, as they will do many things to either help or hinder you!

All of the music is straight from the television show. In addition to the music, a lot of familiar faces from the cartoon series will make special appearances throughout the game. All Simpsons' fans rejoice!

At the winter CES, Nintendo gave EGM a preview of what they are working on for a potential game this summer, and this cart looks hot! This is crazy, weird, wild, idiosyncratic and futuristic 3-D miniature golf! Special Tee Shot involves the concept of golf, but includes a new twist. The play surface is on a course that shifts, moves and is suspended in air! The main objective is to hit the ball and make it to the goal flag on the other side of the course. You may choose to be a beginner, amateur, professional or a master. The elements you have to deal with are the wind, hills, water hazards, triangular blockers and many more things to stand in your way of reaching that hole! Try to finish the hole with the fewest strokes possible.

## NEW KIDS ON THE MOVE!

M.C. Kids™ is the new action/exploration title for the Nintendo Entertainment System™ from the game design team of Virgin Games. With the apparent termination of the Super Mario Brothers™ series on the NES, M.C. Kids is destined to fill that spot.

Filled with bright colors, smooth game control, large levels, and characters that kids from all ages can relate to, M.C. Kids is the Mario adventure of the future.

The story of M.C. Kids takes place

in McDonaldland™, a place of fun-filled action, picnics, and friends. Ronald was showing off his Magic Bag at a Meadow when suddenly Hamburglar™ ran by, snatching the Magic Bag from Ronald's grasp. Ronald enlisted the help of two young boys in an attempt to recover this dangerous item. To advance into further areas, the young men must find the magical puzzle cards in each area. Many secrets lie in wait for the twosome.

With the Magic Bag in Hamburglar's hands, chaos has run rampant throughout McDonaldland. The creatures indigenous to each area are determined to stop the boys from reaching the Magic Bag. Ronald and his friends have placed Magic Blocks everywhere to help the M.C. Kids retrieve the Magic Bag. Each area is loaded with secrets, techniques, and surprises guaranteed to test their reflexes and challenge their mind. Ronald has divulged a few tips to help...

## CHECK OUT THIS ALL-STAR CAST!

**MICK™ & MACK™**

These young men are hamburger fanatics. They love adventure and french fries on the side.

**RONALD McDONALD™**

He is a clown with a frown. He lost his Magic Bag to Hamburglar, and cannot get it back.

**BIRDIE™**

Birdie the Early Bird lives in a tree-house high in the sky and may have some leads for the M.C. Kids.

**GRIMAGE™**

Grimage has a secret! He has an important clue to help the M.C. Kids get the Magic Bag.

**PROFESSOR™**

He is a wiz with gadgets and gizmos of all shapes and sizes. He will help the M.C. Kids anyway he can.

**COSMC™**

CosMc is an out-of-this-world dude who knows how to relax. He holds the key to reaching the Magic Bag.

# McDonaldland

## ADVANCED TECHNIQUES

### BLOCK PULL

Magic Blocks may be picked up from the side or from below. Magic Blocks will knock out the enemies and give you life.

### POWER SPIN

You can warp the forces of gravity by running toward a spin block and whipping upside down. Watch out for the sky!

### POWER JUMP

Jump Blocks are strewn throughout McDonaldland. They give you an extra boost to reach high places.

### SUPER JUMP

By holding a block, you can use the Super Jump Block and soar to the heavens (almost), and reach the greatest heights.

### DIRT DIGGER

You can dig far beneath the earth in certain areas. You may only dig to the side of you or below you. Don't hit rock bottom!

### STEP BLOCKS

Sometimes you may see a block frame roaming the skies. If you can place the step block here, you can go to secret places!

# Ronald's Clubhouse

Ronald's Clubhouse is the first area you must conquer. If you can retrieve four of Ronald's Puzzle Cards, you will be able to proceed to Birdie's Treehouse. After getting all six, you will be able to enter Ronald's Puzzleworld, but you need six Secret Cards in order to play these fun-filled worlds. Seven Puzzle Cards are hidden here.

## The Garden

This is a land of green grass and many techniques. You will have to utilize the spin block to reach a card for Ronald's Clubhouse. It is below a platform and much to high to jump for, so just spin around, grab the

card, and make for the exit. If you want to stock up on lives, coins are scattered everywhere! Gather up over 100 coins, and you will be transported to the Bonus Level where you can compete to gain numerous extra lives or change the

identity of your M.C. Kid. The trick to the bonus areas is to stay on the up arrow block until you can jump to the ledge above. Once there, you must choose between two zipper passages that lead to 1up areas. Try to get them all!

The Garden hides Ronald's third Puzzle Card underneath a platform. Use the spin block to reach it. If you decide to stay upside down, you can reach more coins. The Super Jump Block is on the ceiling. Use it to return to the spin blocks when you are done roaming the sky. Beware the one-way blocks. They will send you back to the beginning of the level, hurtling you head over heels.

Not counting the extra bonus coins you receive from the finish line, you can accumulate 44 coins on this level alone. Since it takes 100 coins or more to reach the Bonus Level, this is a good spot to stock up on extra turns. Remember to use the spin blocks to get coins on the ceiling. Six more coins are hidden at the very end of the level, past the Garden finish line.

You can easily gain an extra life every time you enter the Garden. First, near the end of the level you must jump over some one-way blocks to reach the finish line using some Magic Block platforms. If you can reach the highest block, you will be able to jump onto the 1up and over to the six hidden coins to the right. Jump back onto the 1up and grab it to finish the level.

### *Gopher Grove*

This area is loaded with gophers and spiders! You can find Ronald's first Puzzle Card near the middle of the level. Bounce on the jump block to reach the platform where it awaits. Near the beginning, you can gain a 1up high in the sky by uncovering the hidden jump block.

### *Lazy Leaves*

Use the floating leaves as ledges to reach the upper areas of this level. Near the middle of the round, Ronald's fourth Puzzle Card lies hidden on the branch of a tall tree. Use a jump block to get to the branches, go left to the tree, then fall down the left side of the tree to the card.

### *Mountain View*

Ronald's fifth card is lying out in the open on a platform. Near the end of the level. If you can manage to get on top of the ceiling, you can gain many extra lives in a secret passage at the end. You will then fall just to the right of the finish line, so you can easily end the round.

### *Hidden Glen*

This level hides the first card to Hamburglar's Hideout. It is hidden high in the sky. Jump on the first horizontal branch and wait. Leaves will begin to fall that can take you to the card. A 1up is hidden directly above you, but be sure to take a block with you to hit the gopher.

### *Towering Trees*

Ronald's sixth card is hidden in a tree directly above you when you start. You will have to climb up the right and fall down the left. The Professor's second card is at the top of the tallest tree. A 1up is near this card. You can also reap many coins if you can use the jump blocks here.

# Birdie's Treehouse

In this level, you can easily find your head in the clouds as you brave icy caverns, bottomless pits, and harrowing jumps. Every one of Birdie's Puzzle Cards are located here. If you get 5 cards, you may pay a visit to Grimace's Highlands. If you get all six cards, you get a free life as well. In all, eight Puzzle Cards are hidden in Birdie's Treehouse.

## The Stratosphere

This level is certainly way up there! Based in the clouds, you must ride them to even higher areas where cards await! The third card for Birdie's Treehouse is hidden near the end up near the top of the screen. Floating clouds will take you to it. You can get the sixth card to Hamburglar's Hideout directly above you when you start. Take the first cloud and jump off to a ledge on the left. Follow the ledges to left until get back to the beginning and jump left. You should land on a cloud on the left ledge,

right next to the card. Two 1ups are here.

## Icy Maze

As chilling as it sounds, the Icy Maze level is not too difficult. Two cards are hidden here, one by the finish, and one through a zipper passage. The first card of Birdie's Treehouse is the one near the exit. You need to jump off the slope to reach it. The zipper passage concealing the fourth secret card is located in the upper

right corner.

You must traverse several slippery jumps to reach it. In fact, the crucial jump is one where you must do a squat jump, which make you jump higher. If you want to stock pile free men, a 1up is located near the

beginning, next to a lonely gopher. The key to this level is to go with the flow. Follow the slopes and ledges to your goal. The only real danger are the jump blocks at the bottom.

## Slippery Slopes

Birdie's sixth card is here, up in the sky once more. Run full speed ahead, hit the slope ending with a ramp, jumping squarely onto the second ledge. Walk to the right, bounce on the jump block to the ledge and the card skyward. A zipper is located near the finish.

### Secret Suprize

The secret of this level is to jump on the cloud overhang at the start, then spring to the cloud bank on the left. You can fall down the left side of the clouds to a secret passageway concealing many coins and Birdie's fourth card just to the right of a jump block. The finish is nearby.

### Frozen Caverns

Here is another cavern full of slippery surprises! You can find Birdie's fifth Puzzle Card here as well as four brilliantly hidden 1ups. If you really want to top out your extra lives, this is the place! Several angry snow-

men are roaming these caverns, each bent on driving you away. Some shivering gophers sit on the ice ledges in an attempt to knock into off into oblivion. Learn to use your jumps wisely and you can cruise to the end in no time! Watch

out for the gopher blocking the finish line. He is easily knocked away with a couple of magic blocks. If you decide to take the high route, beware the spike pitfall along the way. If you fall in, chances are that you will not escape.

The fifth card for Birdie's Treehouse is not hidden, but it serves a much greater purpose than it seems. It is suspended in mid-air near the beginning. Your only danger is to knock off the rampaging snowman on the ledge.

The spin blocks near the end of the level will let you access the coins suspended at the ceiling above. They can also provide you with another way to reach the elusive four 1ups hidden just to the right of the finish line...

The four 1ups are easy to reach if you don't take the card. Jump on the card, then jump onto the diamond shape in the background. Then move over to the next diamond shape to the right, and once more to top of the level...

### Frosty Mountains

You can get four 1ups here also, as well as the second card to Birdie's Treehouse. Your first move is to fall through the snow, then work your way back up the right side using the jump blocks. You will come across the card along the way as jump up to the finish.

# Grimace's Highlands

The Highlands are separated into two parts. If you can find three of Grimace's cards, he will build you a path to the other levels. This area contains 9 cards. If you find five cards, he will show you how to get to the professor's Workshop, and if you find all six cards, Grimace will give you a very special clue about the last level.

## Cliffion Heights

Grimace's third card is here, located directly above you when you start. You need to climb the first cliff, then take a running jump to the left to the cloud in the sky. You may also find three 1ups total using the zipper passage high in the sky. You can fall to the right of the finish line.

## Moose Bridge

This level contains two cards. Grimace's fifth card lies directly below and to the right of the start. The sixth Secret card is all of the way to the right at the top. You need to stay on the upper rickety bridges to reach it. The jump block will help you get to the upper areas.

## Lumberjack Lane

Again, you may find two Puzzle-cards! Grimace's sixth card is locating below the treetops. Stay at the bottom and you will find it. The Professor's third card is found at the top near the finish. Search for the hidden jump block at propels you to the top of the trees and head right.

## Fry K Falls

These falls are not healthy! Only Grimace's fourth Puzzle Card is hidden here. You'll find it just to the right of the finish line. To get there, keep to the top of the falls, and look for the red platform near the top of the screen. It will take you. Many 1ups are strewn throughout.

## Danger Lake

This lake is full of watery dangers, like M.C. Kid-eating piranhas! Boat across the cavern until you reach the red platform. Jump on it and let it sink half-way down. Get the step block and go back to the left. By using it, you can reach Grimace's second card on the upper ledges.

## Far Falls Forest

This forest will trap you in the water if you fall at the wrong spot, leaving you as fish bait. This level has two hidden Puzzle Cards, one of which is crucial to getting to Ronald's Puzzleland. One of the first

rules to remember is not to jump blindly into the darkness, or you will surely fail. The boat has more than one use; remember to pick it up and take it with you everywhere you go. Surprisingly enough, you need the boat more than you need anything

else. Watch for the flying fish circling the dangerous waters below! If you can find the correct route, you may be able to reach both Puzzle Cards and a well-earned 1-up as well. Remember not to fall between the trees, or you're finished!

The easiest Puzzle Card to get in the entire game is right here. First, a zipper passage lies directly to the left of you when you start. Simply fall to the left and land on the platform below. Enter the zipper passage and you will reappear below the finish line. Ronald's second Puzzle Card will be right above you. Then, just jump up into the finish line to end.

Grimace's first Puzzle Card is well hidden in the upper right of the level. You will need to bring your boat with you as you climb the tree next to the large waterfall. You can place your boat on this waterfall and ride across to the Puzzle Card and a handy extra life. The level isn't over yet, however; you still need to jump across a couple of small waterfalls.

The hardest portion of this level is navigating the waters underneath the flying fish. The pattern is relatively recognizable as a circle. You may not say the fish, but imagine them circling about to jump on you. Timing must be excellent to pass them without losing life. One flying fish awaits you on the large waterfall. Look for the fish near the end.

# Professor's Workshop

The Professor wants to build you a rocket to CosMc's Retreat, but he need 5 cards to do it. He can also build a shortcut to Ronald's Clubhouse if you get all six of his superbly hidden cards. This area contains 8 Puzzle Cards, of which only four are the Professor's. The Two of the cards are vital to defeating ing Hamburglar.

## Porte O' Comets

This level has two valuable cards. The first is the fifth Secret card. It is found just below you when you begin. To reach it, head to the right until you can fall down. When you fall, be prepared to swim like crazy! Head back to the left, grabbing the card and entering the zipper passage. In the zipper passage, head to the left to get a 1up. Now you are back at the beginning. Head to the left and grab a magic block when you can. You will need to jump on a super jump block to reach the third card for CosMc's Retreat. Without this card, you cannot finish the game. Watch out for the falling comets!

## Dino Dunes

Among the fossils at the Dino Dunes lies one hard to reach card. Here, you must use a little foresight when you dig or you will find yourself trapped without the means to finish the level. The first step to defeat this level is to reach the step block. It is located on a ledge below the surface. Get it and place it in the empty frame near the beginning. You will reach the ledge with the spin block. First, dig out all the dirt below this ledge. Then dig out a zig-zag passage through the sand to the areas below. Now return and use the spin block. You will be able to reach the fifth card for the Professor's Work-

shop and a 1up. Return to the spin block and become right-side up. Go back down the zig-zag passage and head to the right. You will see a sand ledge that you can dig through to get some coins. Keep going down the right side until you hit the last ledge. If you head to the left, you can dig into a cubby-hole and retrieve two free lives. If you didn't trap yourself the finish line is just to the right of this area. Watch for the hermit crabs lurking in the shadows. Many 1ups are hidden in the sand. Look for the hidden coin grove at the very top of the level, near the center. More coins, the better!

After you retrieve the step block, place it in the empty frame at the beginning. Now if you get on it, it will take you to a zipper passage! This is the only way to retrieve the Puzzle Card and find the correct exit, so don't miss it. Be careful! The squirrel is looking for you.

## Magic Forest

Here, all is not what it seems as you race forward, only to run into the finish line quickly. Here's a tip: jump over the finish line and you will find a step block to use at the beginning. The Magic Forest hides the Professor's first Puzzle Card.

In order to jump over the finish line, you must be prepared to make a series of jumps over birds, gophers, and squirrels. You must land on the tree stump before the finish line and immediately jump over without stopping. The same applies coming back to the start.

The first Puzzle Card is the second Secret card. It is hidden in a zipper passage that takes you to the finish line and another 1up in the dirt. To get there, move until you get to the bone platforms and fall to the water. Now swim to the left through a narrow passage. That's it!

## Desert Cove

This area is another underground level hiding two special Puzzle Cards. You can find a 1up right at the beginning to help you get past this precarious level. Be prepared to do some high-powered swimming and squat jumping to finish!

The second Puzzle Card is the third card for Hamburglar's Hideout. It is located in the bone platform area far at the top. You will need to perform some extremely fast squat jumps to reach the upper bones. Be careful! The bones will fall after a couple of seconds.

The fourth card for the Professor's Workshop is located behind the finish line. To get there, Simply fall down the left side of the ship, land on the platform, get a 1up, and swim to the right. You will be given a chance to pick a magic block that you will need for a Super Jump.

## Captain's Ship

Shiver me timbers! It's an authentic pirate ship! I wonder where the Captain is. This level hides two of the Professor's Puzzle Cards, so it is crucial that you learn it back to front. This level is best to do in two parts, finishing twice after getting a card.

The Professor's sixth card is hidden high on a mast. Follow the same procedure as the first card, but enter the zipper passage to gain access to the upper sections. Then simply head to the right on the masts and grab the lonely card. Watch for the gopher roaming here.

# CosMc's Retreat

This area is the smallest area, having only four levels to explore. Still, six Puzzle Cards are hidden here, five of which are for CosMc's Retreat. In this area, gravity is low, so your jumps are many times higher! CosMc will open an entrance to Hamburglar's Hideout if you can retrieve five of his cards. He does not give you anything for six cards.

## Moon Monsters

Yikes! Monsters with huge tongues are living in some of these holes! Look for CosMc's second card is high in the sky half-way through the level. His fifth card is hidden below the surface. Find the hidden entrance right after a tongue monster next to a sign.

## Swissland

It is now time to go through the green cheese of the moon's underground area! CosMc's first card is here, as well as a few new enemies to watch out for! An indestructible version of the hermit crabs (which

look suspiciously like the Fry Guys) is roaming the floor, joined by a oogle-eyed space caveman! This maze runs in the same manner as the Icy Maze of Birdie's Treehouse. Just follow any pathway to reach

new power ups and Puzzle Cards. The map above should help you get through this maze, allowing you to maximize your coin-collecting. Do not fall down the large chasm above the finish or you'll miss the line.

CosMc's first Puzzle Card is located in the upper right-hand corner of the maze, right above the finish line. To get there, you must travel along the corridor below the one where you start and head right. You will eventually come to a chasm which you must clear to reach a zipper passage. The passage will take to the upper portion of the maze.

You can find a couple of 1ups quickly and easily by following the lower portion of the maze. One 1up is located near the center, while the other is buried under some magic blocks just below the first 1up. One corridor leads underneath the finish line but do not follow it. Nothing is there for you to pickup. Do after the 1ups before you grab the card.

This level is really easy to regain lost life thanks to the Moon Crabs. Since they merely become stunned when hit, you can make a magic block up and down on them forever, giving you more health each time you toss on another block. It is really easy to do after you pass through the zipper passage. This is a good place to prepare for the finish line.

### Constellations

This area is full of high-flying fun! The first card you come across is below the jump blocks at the bottom. This is the third Secret card and you will need to tightly tap your jump button to reach it. Otherwise you will jump too high and propel up into the stratosphere.

After grabbing that card, use the

right or left-hand jump block and you will be able to reach a floating jump block in the sky. Bounce off of this towards the center. The finish line is here, but just land next to it. If you squat jump up, you can reach yet another floating jump block. Spring off of this one towards the left to reach a zipper passage containing

two 1ups and coins. When you exit, leap to the right and you will land on a platform with CosMc's fourth Puzzle Card. Afterwards, jump back to the finish line in the center, avoiding the one-way blocks as you land. No problem! Your only danger are the numerous flying enemies everywhere.

### Spring Fever

The sixth CosMc card is hidden on a ledge to the right of this level, but you can't reach it without the help of a zipper passage. When you start, uncover the left magic block and fall to the ledge below. Walk to the left and you will fall into a secret hole. Immediately pull to the right and you will land on the zipper passage. Enter it and you appear next to the Puzzle Card! Unfortunately, that is the easy part. You must walk left and fall between numerous jump blocks or you will never reach the finish line at the bottom! Your best bet is to remain near the sides and

fall in a zig-zag pattern to one of the ledges below. If you can manage to land there, watch out for the Moon Crabs lurking on the lower ledge. Another problem is getting around the corner of the ledge, avoiding the jump blocks covering the finish line. This

Puzzle Card is not necessary to finish the game if you already

have five CosMc cards.

# Ronald's Puzzleworld

All right! You have all six Secret cards, and you can now have fun, sort of. If you can finish all three levels, you will receive ten free lives from good old Ronald himself. If you can finish all three levels and pick up every coin on the way, you will be awarded with the best surprise, unlimited turns! This is a worthy challenge for any gamer!

## Phony Finishes

This is an easy level to finish. **NOT!!** The true finish line is way to the right, and fake finish lines are everywhere! One wrong touch, and you are back where you started. To top it all off, one-way blocks are strewn in some precarious places. You will need to use step blocks, jump blocks, and even moving clown platforms. Talk about pressure! Every jump must be perfect or else everything you worked for is for naught! You may lose many lives before you finish this one! No enemies are here, but so what?

## Clowning Around

This is another level of unending frustration. You must jump around from platform to platform getting on moving clown platforms without falling to your doom or touching one of the one-way blocks, sending you hurtling back to the beginning. Patience is a virtue here, as you must sometimes wait for platforms to appear from a distance. One wrong jump, and you are history! Once again, no enemies are here to cause trouble, but neither is anything else, either! No 1 ups means no hope to recover without getting 100 coins.

## Zipper Do Da

This is the most fun of the three Puzzleworld levels. Here, all you need to do is go into the numerous zipper passages until you retrieve all of the coins and the 1 up hidden here. Be forewarned, however; this will not be easy! This level is merely a maze of zippers, and which zipper will take where is the question. The only way to find the answer is to enter every zipper more than once. Sometimes a zipper passage leads to more than one exit. Entering the same zipper twice in a row may bring you to a whole new area.

Finally, you have reached the pinnacle of your mission, Hamburglar's Hideout! Here, you may find the remaining three Hamburglar cards and one Secret card. Once you have all six Hamburglar Puzzle Cards, Hamburglar will open up the Magic Cave. The Magic Bag has gone berserk and is in the cave, waiting for unsuspecting M.C. Kids!

The name says it all. Getting through this level will require perfect timing and split-second jumps. The bridges begin to burn when you touch them, so find shelter fast! Only the boulder platforms will float in the lava, so learn to use them wisely. Hamburgerlar's fourth card is here.

Get ready for some fun! This area may not be easy, but it sure is fun! Stand on the tractor belts and run to make them move. You may find a 1up early in this level with little resistance. The fifth Hamburglar's Hide-out Puzzle Card is hidden here, near the finish line.

This level starts off with the bridge burning under your feet. Better get a move on! **Hamburglar's second card** lies at the end of the bridge, while the first Secret card is underneath a platform in the sky. You will need to use a spin block in the upper left corner to reach the final card.

This is the last level! Here, you must work your way to the end boss, the Magic Bag itself! At the end area, you will come across the Magic Blocks you have collected throughout your adventure (Grimace's final clue). Fight all four forms of the boss to recover the bag.

What are you looking at? I suppose you've never seen a fire breathing ape before, aye? Well to tell you the truth, neither had I, until that dirty rat Vookimedlo turned me into one. All right! All right! I'll tell you who Vookimedlo is and why he did this to me.

Vookimedlo is an evil sorcerer who's had his eye on my girl for some time now and I can't say I blame him for that. But he's nothin' but bad news and, needless to say, my worst enemy! So, he and his big buddy, Bashtar the invisible giant, ganged-up on me and kidnapped my girl Miho. Vookimedlo zapped me and turned me into a little, helpless monkey. Fortunately, the Spirit of the Jungle doesn't like those two scoundrels

either, and gave me the ability to blow fireballs. Otherwise, I'd just be a little snack for his crazy creatures.

Well, I'd better get movin'. I've got plenty of running, climbing, swimming, shooting, and jumping to do. Hopefully I can find my sneakers and get some serious air! If not, there will be plenty of goodies along the way I can use. Enough chit-chat already! If you're comin' along, you'd better be ready for a wild jaunt in the jungle. Hurry-up! I've gotta get out of this monkey suit!

# QUATTRO SPORTS

## BASEBALL

The Baseball game is basically just like other video baseball

games. Pick your team from the World League and play from either behind the batter, or by a top view during a play.

## TENNIS

This presents a challenging game of timing and strategy, whether playing against the computer or another player.

## BMX SIMULATOR

The BMX Simulator is a new concept. It is a real challenge at first, but once mastered, it can be a real racing blast!

## SOCCER

Soccer is a tough game. You must plan out and execute your shots carefully. The game is very fast, so watch your knees and kick high!

## SPORTS ACTION TIMES FOUR!!!!

Four games in one? Yes! Quattro Sports is the newest in sports action, giving you the option of playing four different and popular sports. Plus, it is all available in one cartridge. The cart includes Baseball, Tennis, BMX Simulator and, a rare title on NES, Soccer. When the cartridge is first turned on, it will give you a select screen so you can choose the game you wish to play. Baseball Pros offers the excitement of a world championship where you choose your team and the team for the computer (or second player). Each team represents a different country. When playing, it switches to a view behind the batter, or during fielding, it gives you an aerial view perspective.

Soccer offers top view perspective, and it is really fast! Take on some of the toughest teams ever to score a

goal. It has intense action, so it is a bit difficult to play.

The next title is Pro Tennis. This basic tennis game gives you a three quarter top view perspective from behind the first player. Keep a close eye on the ball as it could smoke by you for an easy ace!

The fourth game is BMX Simulator. Top view racing action is here! It is the most difficult game to play. Wipe out more than once, and it could cost you the entire race.

All of the games are two player, or play against the computer. You can never get tired of this cart!

## "HEE, HEE, HEE"

Great news! The popular cartoon of the olden times is heading towards the NES! This time, Dick Dastardly has encountered three new races that involve all of his original competitors from the big screen. The only problem is that they are keeping Dick from finishing the race! Sometimes they will even kidnap our hero! At other times, they will sabotage his car. Yet, whatever the problem is - Dick is sure to send his trusty dog, Muttley, out to discover how to win. This is where you come in! You will need to survive three different tracks, each containing four sub-levels that also each contain one of the famous racers as bosses! All of the characters, from the professor, with his technologically advanced auto, to the stone age twin cavemen in their prehistoric vehicle, are in this cart!

The game play is simple - journey through the different levels to locate the kidnapped Dastardly, or, help repair his vehicle. Collect gems for 1-ups and grab bones to get weapons.

Show fans, rejoice and enjoy this fun race down memory lane!

## THERE ARE A SLEW OF DIFFERENT WEAPONS FOR MUTTLEY!

*There are all kinds of different moves that Muttley can perform to further enhance his effectiveness in obtaining what he is after. These actions include throwing bombs, using a barking attack, hovering above the ground by tail wagging, or going for the hearts to either A) increase the amount of life he possesses or to B) heal himself.*

# The Greatest NES™ Adventure Continues... **WIZARDS & WARRIORS III™** Kuros: Visions of Power™

When Kuros last did battle with the evil wizard Malkil atop Icefire Mountain, he raised his IronSword™ in triumph...or so he thought.

Without warning, a powerful bolt of magic robbed Kuros of his armour, memory, and honor. But now, the distant presence of evil stirs in his mind, leading him to the once fair city of Piedup, where the villainous *soul* of Malkil now reigns.

Without his armour, Kuros will need crafty disguises to travel undetected, ready to do battle as wizard, nobleman or thief. From the gloomy depths of the dungeon to the palace containing riches beyond belief...the time has come for Kuros to turn his visions of power into reality!

Kuros the Knight Warrior wields his mighty SilverSword in the face of danger.

To give Malkil a taste of his own medicine, Kuros must master the craft of wizardry.

Kuros, disguised as a thief, moves secretly through Piedup.

Grotesque creatures of the underworld stand between Kuros and his ultimate battle.

# DESERT STRIKE

## RETURN TO THE GULF

### YOU MUST DESTROY THE GENERAL!!

The entire world is shocked when out of nowhere, General Kilbaba leads his army into a small, wealthy Arabian country. This country got its money from an abundance of oil throughout the land. Thus, the oil is the catalyst to the general's actions - he wanted to control it.

General Kilbaba is known around the world to be a heartless man who will stop at nothing to get what he

wants. He gained this reputation by punishing those who thought to stand in his way. Now, the General wants to rule the world!

When the United States finds out about this, the public is outraged by both his treatment of people and his boasts that he can take whatever he wants. The U.S. demands that Kilbaba return to his own country or it will send in its troops to assist in his removal - forcibly. General Kilbaba takes these words as a joke, and he orders his highest deputy, Muammaar, to get all of the missiles ready.

Then, Kilbaba dared anyone to attack him. The U.S. did exactly that! They sent the Air Force's best chopper team over to deal with the madman.

Kilbaba has one slight advantage over the U.S.; he has captured an intelligence agent, and this agent has copies of Kilbaba's nuclear plans.

Therefore, in order to mount an effective attack, you must complete

four primary objectives. First, you must knock out all radar sites. Next, find and destroy the power plant. Then, you must bomb the airfields, and finally, hit the enemy command centers. From the command center, you must capture the commander and bring him back to the frigate because the commander knows the whereabouts of the agent. Be careful, because when you blow up the

command center, you will see a man running from the building; this is the commander. He will be protected by his troops, so make sure you clear out the place first.

Your mission starts on the aircraft carrier just off the gulf coast. You

must fly into the enemy's zone. Once you leave the carrier, you are almost completely on your own. Your mission is ultimately to get

back the intelligence agent and help prevent the General from starting World War III with his nuclear weapons. After you save the agent, fly back to your ship. Once you get there, you will receive points for everything that you completed on your mission however, the four primary objectives must be fulfilled. The fate of the world rests with you.

## MISSION #1 - AIR SUPERIORITY

Your first mission will involve gaining air superiority over General Kilbaba's forces. You will accomplish this by completing four main objectives. Use your map to determine the order of your attack. You must destroy the radar, knock out the power plant and the airports, and destroy the command centers, while making sure to capture the commanders. Be sure not to waste your ammunition as there are only a few refill crates that you can pick up. Also, keep checking your fuel gauge because when the game tells you that you are almost out of fuel, you will not have very much time to find more. Finally, you must help the civilians in the camp who are in the brown tents.

### RADAR SITES

There are two guns around each of these. The best thing to do is to fly right in and wipe out the radar, then quickly get out of there.

### AIR FIELDS

These are the hardest to destroy. First, wipe out all of the weapons guarding it. Then, demolish the buildings and planes.

### COMMAND CENTERS

There are control towers guarding these, so destroy them before bombing the building. The commander will run out.

### POWER PLANT

This is the easiest objective. Destroy one of the guns, and then bomb the building and the first tower next to it.

### MIA

These guys are in trouble and you must help them. Not only is it the humane thing to do, but when you save them, you get armor.

### SECRET AGENT

This is the main goal of your mission. After you complete your other objectives, you must find and bring back the commander.

## MISSION #2 - SCUD BUSTER

There are not many new enemies in this level, but there is a very powerful tank to fight. The tank takes many hits to kill, and when it hits you, it does a great deal of damage. You will still find MIAs, ammo crates and fuel drums, but there are not as many of them laying around. Also, you have new objectives - destroy the radars, save the political prisoners, level the power stations, bomb the chemical weapon plant and scud launchers and aid the POWs.

### JAIL BREAK

This is your first objective. Blow up the door and then gather the prisoners as they come out. They will come one at a time, so wait.

### SCUD LAUNCHER

Destroy the main line of attack by blowing the scud launchers. Capture the commanders to find where more are kept.

### POW CAMP

You must rescue 12 POWs and return them to safety. The camps are heavily guarded by towers and other enemy weapons.

### CHEMICAL WEAPONS

This is very easy to destroy as it is not heavily guarded. You must demolish the buildings, and the rocks around it.

## HELP OUT THE ONES IN NEED!!

If you fly over MIAs or supplies, a rope ladder/hook will come out. Now, you can pick them up and return to your plane. Bring the MIAs back to the launch zone.

Once you have six MIAs in your helicopter, fly to the loading zone and drop them off. You will get some armor back!

## ALIEN INTERBREEDING GONE MAD!

In April, there will be a new Aliens movie coming out on the big screen. A month later, there will be another version of this movie, but not at the box office. This version will be in the form of a Genesis cart.

In the movie, the Aliens interbreed with the human race. The outcome of this produces humans that have Alien characteristics. This makes them even more dangerous because now they are harder to distinguish. An added twist has Alien-hater, and heroine, Ripley impregnated this way. The cart will be based on this story premise, but instead of watching Ripley destroy the Aliens, **you** will be the one doing the destroying.

You are armed with a high-tech motion-tracker, pulse rifles, grenade

launchers, flame throwers, hand grenades and many other incredibly deadly weapons. Your mission is to seek out and find the most feared killer in the universe. This will be one of the most difficult missions in which you have ever taken part. In fact, it will make the battles in Aliens 1 and 2 seem like a walk in the park! How well you do on this project will determine the fate of mankind. If you fail, the whole universe is doomed to be taken over by Aliens!

Your mission will take you from underground tunnels to a bloody slaughter house. Ripley (you) must crawl through dimly lit corridors,

climb up and down ladders, find hidden Aliens, and do all of this while defending herself from attack.

Along the mission, you will come across many other factors that will impede your journey. You will have to face and destroy Alien eggs, Face Huggers, spitting Aliens, Aliens with great jumping powers and then at the end, you must destroy the leader of the Alien Armada! It will be the greatest force that you will face, but you must fight, claw and kill to earn your chance at defeating him.

Use your weapons wisely and often to save yourself, those you love and the human race!

### YOUR FIRST BATTLE

*The first level in this game starts off with a surprise. Instead of the normal action game where you walk right and attack things in your way, this game places you in the middle of a maze. While trying to find your way through, you will be attack by mutant Aliens.*

*This boss aims to put a damper on your already continuously dreary day by throwing little demon whirlwinds at you!*

*This bad boy looks as if it eats guys like you for lunch...and it does! Be prepared to defend yourself!*

## MORE GORE THE SECOND TIME AROUND!

It is your worst nightmare come true. You are trapped in the house of Dr. West and the "Terror Mask" that was once destroyed is back. You must use this item to your advantage, as it will give you strength to ward off evil creatures that lurk around the Splatterhouse and beyond!

In your adventures, you will come across a wide variety of gruesome monsters who have made their way around the house and the area close to it. Use your fists, low kicks and jumping kicks. Also, you may find items strewn all over the place to help you defeat these dreaded horrors, such as the plank of wood and the bone. Regain the life that was once yours and let the mask be destroyed once again.

## RUN FOR YOUR LIFE!!

In a world full of copy-cat games that simply reuse existing ideas, it is nice to have a refreshing change now and then. Data East has such an original idea in Atomic Runner.

In this side-scrolling adventure game you play the part of a cyborg on a mission. What's strange is that you must keep running through the game! Although you can temporarily stop, the screen will keep on scrolling.

You have a choice of many weapons, including a launching mace, ultra-beam, spike balls, or a fire wheel! You can shoot in eight directions, even while flipping through the air!

Your adventure begins in the

base, where the first wave of enemies is awaiting you! Blast the spiders and candles to power yourself up and jump the bridge of fire to enter stage 1-2.

In this second half of the stage, your major foes are the hands that grab onto you. Shoot at the fingers to stop their assault and continue to the first stage boss. It has a pattern to master, but keep firing and you will succeed!

Stage 2 is set in a ruined temple. All of the same action is here, but the boss is another story! It looks like a marshmallow man made of stone! Its weak spot is its huge eyes, so shoot them out and continue on!

Atomic Runner is only in its prototype stage right now, but when it hits the store shelves, it should become an instant hit!

# ATOMIC RUNNER

To receive power-ups, you can shoot the spiders that appear, or shoot out the burning torches!

The money you find will allow you to receive an extra life when 20 are collected!

These hands are a real menace! They simply grab you to let the other enemies kill you!

## TEST DRIVE II

### BUCKLE UP AND DRIVE SAFELY!!

Throughout the years, a hot driving game has been readily available for home computers. Created in three different series styles, the action kept getting better and better.

A computer gamer knows that this game is known as, Test Drive!

Now, however, you will be able to play this game even if you do not own a computer because it is coming out for the Genesis!

The Genesis series of Test Drive will start where the second computer installment left off. Therefore, you can either drive in a time trial, where you try to beat the clock and improve your time, or you can race against an opponent. Your opponent will be the computer, and you will battle him in a race on the open roads of America. Your goal is to beat him to a greater number of check points. Race hard and fast!

# SPORTS TALK

# BASEBALL

## THE ANNOUNCERS ARE IN PLACE!

Just recently, Sega brought out a new idea in sports games. This concept created sports carts even more realistic than ever before.

The big change - they put real announcers inside the press box. The announcers give you a play-by-play analysis of the action that occurs on the playing field. This gives you the effect that you are actually watching sports on television, as well as playing on your Genesis.

Now, Genesis is expanding their sports talk series by adding a new baseball game to it.

The new concept will be very similar to Joe Montana's Sports Talk Football in that announcers will give you a running commentary. Now, you can listen to the announcers cheer when you hit a home run, or listen to them call strikes, outs, balls and fouls.

The baseball game will play like others that have been previously released for various systems, but this one will have the addition of exciting and informative play announcing for added involvement!

*The hitting in this game is similar to RBI Baseball. You see what the catcher would see as you try to hit the ball, or as you smoke a fast ball right past the batter. Once you hit the ball, you will get an overhead view of the field.*

*The view helps you follow the ball!*

*At the start of the game, you must choose what team you want to be from a list of 26 teams, including two All-Star teams.*

*Then, you get to pick the players you want! Your options include over 500 major league players from today or yesteryear!*

*Finally, you need to decide which stadium you wish to utilize for your game! With these options, you have control of your own fun.*

## SUPER-COOL MOVES!

All of the classic blood-curdling moves that gave the coin-op its recognition are here! Use your kicks, throws, punches, and even a hair grab, with a few knee thrusts in the face, to take out the big boss' goons.

JIMMY AND  
BILLY LEE GO 16-  
BIT!

The famous arcade classic that brought a standardization to every fighting game around is now being formulated onto the Genesis! Like the arcade version, you can be either Billy or Jimmy Lee and you must save the beautiful Marian who has been kidnapped by a gang of thugs armed with some of the most powerful muscles ever faced! Venture throughout the City Slums, the woods, a giant warehouse with huge conveyor belts or the main headquarters on your quest. As you travel, use your many different moves to fend off attackers - and maybe get a good crack of a bat across a thug's head while you are at it. Be sure to take a look at this title and see why it is the model for the "street fighting" genre of video games!

# WIN BIG WITH EGM!

Get ready for the ultimate video game contest - only from EGM! Each month, we will be giving away one copy of each of the games profiled in our Fact File columns! To enter, simply detach the reader survey card, answer the questions and mark which system(s) you own. We will then award one lucky winner a copy of all of the games contained in our Fact File section for the system indicated in question three! It is that easy, so act fast! The deadline for entering for our March games is April 1!

*The following companies are contributing to this contest: Electronic Arts, Konami, Interplay, Nintendo, Irem, NTVIC, Tradewest, Toho, Acclaim, Sony Imagesoft, Hal, Seika, Camerica, Absolute, Atlas, Arena, Namco, Data East, Sega, Accolade, Turbo Tech, Telegames, THQ, Sunsoft.*

## ENTERING IS EASY:

- 1) Fill out the Reader Service Card.
  - 2) Answer the Survey Questions and Pick the Systems that You Own.
  - 3) Mail your Readers Service Card to:  
Electronic Gaming Monthly  
P.O. Box 8965  
Boulder, CO 80328-8965
- Winners will be listed in the May EGM!**

**Contest Rules:** All entries must be received before April 1, 1991. EGM or the judges are not liable for lost or misdirected mail. One entry per person, multiple entries will be disqualified. Prizes are not transferable. Illegible or incomplete entries are ineligible. Void where prohibited. The decision of the judges is final. No purchase necessary to enter. Contest is not open to employees of Sendai Publishing Group, Inc. or to members of an immediate family. Taxes are the responsibility of the winner. Approximate value of prizes is \$800. Prizes provided by participating companies and Sendai Publishing Group. Prizes will be forwarded to winner when final production copies are available courtesy of Sendai Publications. One prize per household. Determination of winners will be made through a random drawing. The decision of the judges is final.

## HIGH PASS WATER

This is the second level of the game and the first that should give you a challenge. To finish the level you must climb up the wall.

## UNDER SKULL MOUNTAIN

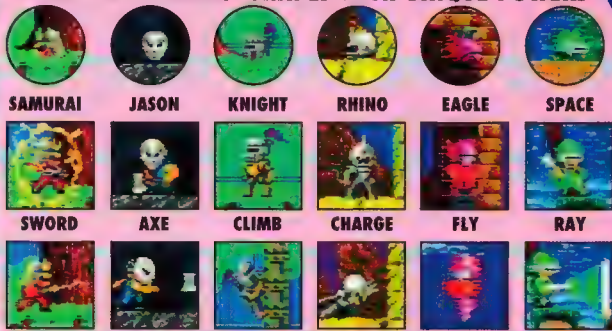

This level has many places you can investigate. Remember, you can walk through some walls! Be prepared to change suits often in order to get through this level.

## TAKE ON DIFFERENT SHAPES WITH UNIQUE POWERS

## THE GAME IS ALIVE!!!

The arcade business was booming, and the games were coming out faster than ever. There was one problem, all the games were too much like each other. However, there was a new game that was released that blew the others away.

This game was incredible. You could walk inside the game, and once inside, the game created a reality not like your own. You did not use controls - you were the controls.

Everyone came and played this game because it was so realist. A problem developed, the game was a little too real. The boss of the game escaped and began capturing the game players. He was unstoppable, no one had the game-player skills that it took to beat him until, Kid Chameleon came into town. This kid was tough, and he could blow through a

game in no time flat. Now, he faces his biggest challenge. He must face a boss who is not made out of pixels, but out of human flesh!

This plays much like a Mario-type game because the only line of attack you have is to jump on the enemy's head. And like Mario, in this game, you can power yourself up so you can shoot, or fly over the enemy. However, in this game there are many more power-ups that you can get. These power-ups are suits you put on which allow you to use your superhero moves. Go to it, Kid!

## TURBO GETS A BLAST OF THUNDER!

By far, this is one of the most impressive game that we have ever seen for the TurboGrafx CD. This disc will be one of the first pieces of software for the new Turbo Duo. It will also work with the older Turbo CD-ROM with the new 3.0 Super System Card. The game play is non-stop and the music quality is spectacular. The end bosses in this game are truly amazing. They fill the entire screen and attack in an extremely aggressive style. Plenty of firepower and reversible option techniques help make this is one game that shows the Turbo still has the potential to bring the arcade experience home!

## STAGE ONE

Here, you are introduced to the largest enemy ship ever seen on the Turbo! Yes it is even larger than the third level boss of R-type! Destroy as much of this battle cruiser as you can and go against the deadly end Boss that emerges.

## STAGE TWO

Fly through the defense fortress blasting away missiles and laser cannons on the floors and ceilings. Watch out for the walls that will try to smash you from the background. The Boss fires a heat seeking laser as well as huge rings of plasma.

## STAGE THREE

This level is filled with large rocks and other hazards. The mountains will close in and try to crush you. You will invade a mining structure where huge flares of lava will threaten your existence. Use Earthquake to get rid of this pesky end Boss.

## STAGE FOUR

This is the most heavily armored level yet! The best weapon is the full power wave. It will let you destroy an enemy on the top and bottom. The Boss is extremely tough. Destroy its head and he splits apart. Now, you have to blast two parts at once!

## STAGE FIVE

This is the most graphically intense level in the game. Giant sandworms attack from the ground while you are confronted by a large armada of enemy ships. Dive into an underground river and blow a hole through the hideous Boss.

A LONE WARRIOR  
RETURNS

After the battle with Death=Adder, the golden axe was given as a gift to mortals. Whoever holds the all important weapon will become ruler of the land. The king hid the axe, but it was stolen by an evil army. Therefore, the king called upon the greatest hero in the land, Ax Battler, to locate and return the fighting blade! As he is the greatest warrior in the land, as well as a loyal subject, Ax Battler is willing to risk his life for the safe return of the axe.

Ax Battler is a new role playing adventure by Sega for the Game Gear. Following the story line of

AX  
BATTLER

Golden Axe and Golden Axe 2, it takes the game into an entirely different perspective, that being an RPG. The female and dwarf characters are not present in this game, but the involving quest with Ax Battler more than makes up for their losses.

Most of the game is carried out in a top view perspective, but the battle scenes are taken from the same side view perspective as the original Genesis titles. Find the golden axe, and save the land from evil leadership. The king's blessings are yours!

*First, talk to the king and learn about your quest. He will impress upon you the importance of your mission! Then, leave the castle.*

*As you begin your search, you will encounter enemies. Fight them with your sword. (The game play will switch to side view.)*

*Continue to the East, and find a bridge. To cross the bridge, you must overcome a battle against a dangerous skeleton monster.*

*Find the town to the south of the bridge. Here, learn more information about your quest, the cave to the east and other surprises.*

*If you are hurt or injured, stop to rest at the inn located in this area of the town. Then, you should go to the cave.*

*Once in the cave, you must survive another big battle scene, flooded with enemies. Watch your energy !!*

**Here's one way to  
take Sonic The Hedgehog™  
wherever you go.**

# CRYSTAL WARRIORS

## BATTLE YOUR FOES!

## CAST A SPELL!

## HEAL YOUR FRIENDS!

## SUMMON A MONSTER!

## YOUR STARTING CHARACTERS

## SAVE THE LAST CRYSTAL FROM EVIL HANDS!

The Crystal Warriors by Sega for the Game Gear is on its way to you, and for you strategy gamers, it looks hot. The Crystal Warriors are a band of freedom fighters that are out to protect a crystal that, if put into the wrong hands, will drastically change the life of everyone in the land.

You (as this band of fighters), must make your way past evil guards into castles. Once you get through a castle, you go to a town and get better weapons, supplies and even more characters to add to

your group. The castles get tougher and tougher to penetrate as you progress. When you are in actual combat with a guard, the game switches to a side view perspective, and you get a role playing-type battle scene. One character is awarded initiative, and then combat goes in turns, while each character has a certain amount of hit and magic points. If a character is defeated,

there will always be someone to replace him or her when you get to the end of a castle. Make sure that you have enough money, though. If the main character, Princess Iris is defeated, then the game is automatically over...protect her well. Use your wizard character to cast healing spells on her. It is fun and challenging. Check out Crystal Warriors for a new type of GG adventure.

## STORM OVER DORIA

For you role playing game fans out there who own a Lynx, here is a game for you. The Guardians: Storm Over Doria is a new RPG that features a three quarter top view perspective with a short quest theme. The action starts out when you choose your character, which can be a knight, one of two wizards (each with a different magic), or a woman with a mean bow. The mission is to save a kingdom.

A king from a far off land is greatly distressed by the kidnapping of his son by an evil wizard. In 30 days, he must renounce his throne to this wizard, or he will bring eternal cold to the land. Thus, the king asks for help from a noble adventurer to save his kingdom and son. The game starts in a city, where you must buy weapons and equipment for your job, and learn information from the townspeople. After this, challenge the labyrinths and defeat the monsters that stand in your way. The game also goes to a giant map screen that you can scroll around to find your way. When you locate your destination, move the cursor on the screen to this area, and you can enter it. Start your quest at the king's castle, and then go to the first town.. Mingle among the locals and learn the different customs and attitudes of the people. After this, travel through mazes in the underworld. Here, you can find what you seek! For a new and exciting quest with crisp graphics and a cool theme, check out this Atari Lynx game.

Prepare for battles at every turn!

# THE GUARDIANS: STORM OVER DORIA

*This is the first of the four warriors. She uses a bow to defeat her enemies. She is not too powerful, but she is fast. She can take on bad guys as efficiently as her friends.*

*This knight is the most powerful of the four heroes. He uses a devastating sword slash to overcome evil. He is above average in all of his attributes, so be sure to use him.*

*This mysterious wizard is a good fighter. He uses small magic spells to beat foes. His magic staff can take out some tough contenders, but physically, he is not very fast.*

*This wizard is fast, but not very powerful at all. Yet, the magic he uses can take out even the most powerful of foes with one blast. He does not look tough, but do not be fooled!*

*Here is the land that you must travel through in your quest. You will find obstacles standing in your way, so use each of the heroes wisely in order to survive in a given area. Remember to watch your back!*

## BIG COMPETITION ON THE LITTLE SCREEN!

The fighting action of the arcade classic from Atari is here. With NES, Super NES, and Genesis versions either available, or on their way, why not have one available for GameBoy owners. You asked for it? Here it comes! Check out this special CES Preview for all of the hot information on this cool cart.

Awesome game play and digitized graphics are offered on this GameBoy! Choose from the three original fighters. First, there is Buzz, the ex-pro wrestler. Choose him for power. His specialties are the body slam, the headbutt and the pile driver. Second, there is Ty, the kick boxing champion. Choose him for agility. His special moves are the spin kick, the flying kick and the roundhouse. Third, there is Kato. He is a third

degree black belt, so choose him for speed. His powerful moves include the combo punch, flip kick and the backhand. All three characters are basically adequate fighters, so that once you master the game with one character, you should be able to beat it with any one of the three characters. Battle an array of different opponents. Throw knives, barrels, stools, and even motorcycles at them. Pit Fighter is a good translation for the GameBoy. Although it is an 8-Bit title, it has the look and feel of the arcade game. There are a few small details missing, like color, but all in all, Pit Fighter GB will have you coming back for more.

### THE CLOWN PRINCE OF CRIME RETURNS!

That is right! The awe-inspiring title from the NES is now entering the portable arena for a second bout with the Joker and his henchmen. Enter: a whole slew of different enemies with all new tricks up there sleeves, such as enemies tossing metallic disks at you. Some are even

armed with huge tanks that throw out grenades at you.

In order to get up to the level that contains the Joker, you will first have to contend with three of his most deadly allies - Dark Claw who leaps and slashes at you. The Shogun Warrior will strike with gleaming blades, and Foul Ball will really deliver a good hit!

Gotham City is counting on you to save the day!

### STAGE ONE - THE SEWERS

The sewers contain really cool special effects such as a waving water pool never seen on a GameBoy screen! Stick close to the ceiling and try to get to the leaping Dark Claw!

### STAGE TWO - THE MACHINE FACTORY

Throughout the factory, there are many dangerous areas, so timing is very important. Also, make sure you have a healthy supply of batarangs for the tank and the Shogun Warrior!

### STAGE THREE - THE SPEEDING TRAIN

There is only one type of enemy that will try to stop you, and that is the mad, charging creature Foul Ball! Simply leap over him. Then, just duck and hit him. This Boss will fight!

## LICENSING PROBLEM...

January 13, 1992

Dear Mr. Harris:

On page 16 of the November, 1991 issue of your publication, Electronic Gaming Monthly magazine, there appeared an editorial response to several letters from readers concerning the video game Battletoads. In that editorial response, you referred your readers to a product called the Game Action Replay by Acemore International Ltd. In your concluding remarks you stated as follows:

"Best of all, the GAR [referring to the Game Action Replay] is a licensed Nintendo accessory..."

Please be advised that the Game Action Replay is not now presently, nor has it ever been in the past,

licensed or endorsed by Nintendo. We appreciate your taking prompt action to correct this misrepresentation and to insure that similar misrepresentations are not made in the future.

Thank you for your cooperation.

Very truly yours,

**Nintendo of America Inc.**  
Lynn E. Hvalsoe  
General Counsel

*(Ed. Ms. Hvalsoe is correct in that the Game Action Replay is not a licensed Nintendo product. Back in September 1991 when we were working on the article, a spokesperson from Acemore told us that Nintendo was very enthusiastic about the Game Action Replay and that they were expecting preliminary confirmation of the license at any time. Since then, Acemore has transferred the rights of the Game*

*Action Replay to STD Entertainment (USA), Inc. and STD being the new owner, resent the licensing request to Nintendo. This request was denied on January 2, 1992.*

*Even without the Nintendo seal of approval, we still believe that the Game Action Replay is a spectacular peripheral and one which players*

**The Game Action Replay is not a licensed Nintendo product.**

*should consider purchasing. By being able to save virtually any game into memory and come back to it at a later point in time is a feature which dramatically adds to any cartridge.)*

# SUPER ADVENTURE ISLAND

## THE ADVENTURE OF A LIFETIME!

Super Adventure Island is one of the hottest carts available for the Super NES. The graphics are colorful and full of great animation and the music is some of the best on the Super NES. The U.S. National Video Game Team is here to help you get through this great cart and give you the secrets and techniques to play like a pro. You are Master Higgins and the evil Witch Doctor has once again taken your sweetheart from you. You must go after her and brave 20 levels of wilderness and adventure. We've included special maps and strategies to help you get through the toughest spots in the game. Soak it all in and then go after your main squeeze.

*This level is pretty basic. Learn how to control Master Higgins and practice the super jump move while running. You'll need to know how to do it later in the game. If you keep the skateboard to the end of the round you should get 8000 bonus points!*

**NEW SUPER JUMP MOVE**  
To Jump really high without running just hold down on the control pad and press the jump button.

## LEVEL ONE-TWO

This level is filled with all types of moving platforms and other dangers. If you get to the spot shown to the left and have the Boomerang, there is a way to avoid the hammer. Use a Super Jump to get over the hammer. Do the jump when the platform is all the way to the right. Later in the round, there is a hidden star. All you have to do to uncover it is stand next to the wall and jump straight up. Higgins will do a macho dance.

Find a bonus in part two of each world.

## BONUS ROOM ONE

In each bonus world you can get a 1-Up. You must get all the items and then the Icon will appear.

## LEVEL TWO

## LEVEL TWO-TWO

This level has many dangerous jumps to make and about midway through the level there is one that has many players stumped. If you jump off a certain ledge a little penguin will follow you by jumping in the water or flying across to attack you. What he does depends on which half of platform you land on. Left is bad and right is good.

If you have Boomerangs you can shoot down and kill the penguin.

Find the Bonus Round by jumping on the left side of the platform shown above.

## BONUS ROOM TWO

Be sure to jump as high as you can off of the last trampoline if you want to get the 1-Up that appears.

## LEVEL ONE-THREE

You can avoid the hammer on the rock at the beginning of the stage with a Super Jump. Do not try jumping over the candles unless you are skilled at using the Super Jump. You should keep the Boomerang for the end Boss.

## LEVEL ONE-FOUR: DA BOSS

If you have the Boomerang just walk under the Boss and shoot straight up 9 times and he's dead. If you have the hammer it will be a little tougher. You should stand on the left or right of the Boss and do a Super Jump and shoot him in the head. Jump over the flames that come from his mouth.

## LEVEL TWO-THREE

Master Higgins will be swallowed by a huge whale and will have to swim his way through its body. The safest place to stay is at the top of the screen and shoot bommerangs down towards the enemies. Be sure to stay afloat or you'll drown.

## LEVEL TWO-FOUR: ANADA BOSS

This Boss isn't as bad as he looks, just stay away from that tentacle. If you have the Boomerang you have to get in front of him to hit him. If you have the hammer you can stay at the upper left corner and hit him in the head. Watch for the fish that he send after you. Each weapon has its pros and cons.

# Keeping It Portable Was Tough...Until Now.

Expanding your Game Boy system does not mean giving up portability; not now. The rugged Light Boy **GAME KEEPER** is a durable and practically designed hard-shell case for everything you will need to get the most out of your Game Boy system.

With special compartments for your Game Boy, Light Boy, Rechargeable Battery Pack, Six Game Paks, Game Link, and Ear Phones, the Light Boy **GAME KEEPER** allows for on-the-go action. A port is even provided to allow the cord for the battery pack to pass through to Game Boy. If you have a battery pack, you can keep it inside the **GAME KEEPER** and still provide the power to keep your Game Boy going on the outside.

Never again will you have to sacrifice power for portability.
